Forward Looking Statements

This report contains forward looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. These forward looking statements are based largely on current expectations and projections about future events and trends affecting the business. In this report, the words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “forecast,” “expect,” “plan,” “should,” “is likely” and similar expressions, as they relate to the business or to its management, are intended to identify forward looking statements, but they are not exclusive means of identifying them.

The forward looking statements in this report are only predictions and actual events or results may differ materially. In evaluating such statements, a number of risks, uncertainties and other factors could cause actual results, performance, financial condition, cash flows, prospects and opportunities to differ materially from those expressed in, or implied by, the forward looking statements. These risks, uncertainties and other factors include those set forth in Item 1A (Risk Factors) of this Annual Report on Form 10-K and the Cautionary Statements filed by us as Exhibit 99 to this form including the following factors:

- the impact of general economic trends on the Company’s business;
- the deferral or termination of programs or contracts for convenience by customers;
- market acceptance of the Company’s Aerospace Products and or other planned products or product enhancements;
- increased fuel and energy costs and the downward pressure on demand for our aircraft business;
- the ability to gain and maintain regulatory approval of existing products and services and receive regulatory approval of new businesses and products;
- the actions of regulatory, legislative, executive or judicial decisions of the federal, state or local level with regard to our business and the impact of any such actions;
- failure to retain/recruit key personnel;
- the availability of government funding;
- delays in receiving components from third party suppliers;
- the competitive environment;
- the bankruptcy or insolvency of one or more key customers;
- new product offerings from competitors;
- protection of intellectual property rights;
- the ability to service the international market;
- acts of terrorism and war and other uncontrollable events;
- joint ventures and other arrangements;
- low priced penny-stock regulations;
- general governance features;
- United States and other country defense spending cuts;
- our estimated effective income tax rates; estimated tax benefits; and merits of our tax position
- potential future acquisitions; and
- other factors disclosed from time to time in the Company’s filings with the Securities and Exchange Commission.

Except as expressly required by the federal securities laws, the Company undertakes no obligation to publicly update or revise any forward looking statements, whether as a result of new information, future events or otherwise after the date of this report. Results of operations in any past period should not be considered indicative of the results to be expected for future periods. Fluctuations in operating results may also result in fluctuations in the price of the Company’s common stock.

Readers are cautioned not to place undue reliance on these forward looking statements, which speak only as of the date of this Form 10-K. The Company does not undertake any obligation to publicly release any revisions to these forward looking statements to reflect events, circumstances or changes in expectations after the date of this Form 10-K, or to reflect the occurrence of unanticipated events. The forward-looking statements in this

document are intended to be subject to the safe harbor protection provided by Sections 27A of the Securities Act of 1933, as amended (the “Securities Act”) and 21E of the Securities Exchange Act of 1934 as amended (the “Exchange Act”).

Investors should also be aware that while the Company, from time to time, communicates with securities analysts; it is against its policy to disclose any material non-public information or other confidential commercial information. Accordingly, shareholders should not assume that the Company agrees with any statement or report issued by any analyst irrespective of the content of the statement or report. Furthermore, the Company has a policy against issuing or confirming financial forecasts or projections issued by others. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are **not** the responsibility of Butler National Corporation.

PART I

Item 1. BUSINESS

General

Butler National Corporation (the “Company” or “BNC”) is a Kansas corporation formed in 1960, with corporate headquarters at 19920 West 161st Street, Olathe, Kansas 66062.

Current Activities - The Company focuses on two primary activities, Professional Services and Aerospace Products.

Aerospace Products:

Aircraft Modifications principally includes the modification of customer and company owned business-size aircraft from passenger to freighter configuration, addition of aerial photography capability, and stability enhancing modifications for Learjet, Beechcraft, Cessna, and Dassault Falcon aircraft along with other specialized modifications. We provide these services through our subsidiary, Avcon Industries, Inc. (“Aircraft Modifications” or “Avcon”).

Avionics principally includes the manufacture, sale, and service of airborne electronic switching units used in DC-9, DC-10, DC-9/80, MD-80, MD-90, and the KC-10 aircraft, Transient Suppression Devices (TSDs) for fuel tank protection on Boeing Classic 737 and 747 aircraft, and other Classic aircraft using a capacitance fuel quantity indicating system (“FQIS”), airborne electronics upgrades for classic weapon control systems used on military aircraft and vehicles, and consulting services with airlines and equipment manufacturers regarding fuel system safety requirements. We provide the products through our subsidiary, Butler National Corporation - Tempe, Arizona and the services through Butler National Corporation - Olathe, Kansas (“Avionics”, “Classic Aviation Products”, “Safety Products”, or “Switching Units”).

In September 2010 we expanded this division by the acquisition of Kings Avionics, Inc. The acquisition of Kings Avionics allowed us to transition into the new technology available in avionics. Kings Avionics sells, installs and repairs avionics equipment (airplane radio equipment and flight control systems). These systems are flight display systems which include intuitive touchscreen controls with large display to give users unprecedented access to high-resolution terrain mapping, graphical flight planning, geo-referenced charting, traffic display, satellite weather and much more. Kings Avionics is also recognized nationwide for its troubleshooting and repair work particularly on autopilot systems.

Professional Services:

Butler National Services, Inc. (“BNSI” or “BNS”) provides monitoring and related repair services of water and wastewater remote pumping stations through electronic surveillance for municipalities and the private sector. On May 1, 2013 we sold our waste water monitoring business (Butler National Services, Inc.) to Beadle Enterprises, LLC.

BCS Design, Inc. provides licensed architectural services. These services include commercial and industrial building design.

Butler National Service Corporation (“BNSC”) provides management services to the Boot Hill Casino, a “state owned casino” and to The Stables, an “Indian owned casino”.

Regulations

Regulation Under Federal Aviation Administration: Aerospace is subject to regulation by the Federal Aviation Administration (“FAA”). We manufacture products and parts under FAA Parts Manufacturing Authority (PMA) requiring qualification and traceability of all materials and vendors used by us. We make aircraft modifications pursuant to the authority granted by Supplemental Type Certificates issued by the FAA. We repair aircraft parts pursuant to the authority granted by our FAA Authorized Repair Station. Violation or changes to FAA regulations could be detrimental to our operations.

Licensing and Regulation under Federal Indian Law: Gaming on Indian land is extensively regulated by Federal, State, and Tribal governments and authorities. Regulatory changes could limit or otherwise materially affect the types of gaming that may be conducted on Indian Land. All aspects of our business operations on Indian Lands are subject to approval, regulation, and oversight by the Bureau of Indian Affairs (“BIA”), the Secretary of the United States Department of the Interior (“Secretary”), and the National Indian Gaming Commission (“NIGC”). Our management of Class III gaming operations is also subject to approval of a Class III Gaming Compact between the Indian Tribe and the respective state. Failure to comply with applicable laws or regulations, whether Federal, State or Tribal, could result in, among other things, the termination of any management agreements which would have a material adverse effect on us. We are also required to comply with background checks as specified in Tribal-State Compacts before we can manage gaming operations on Indian land. There can be no assurance that we would continue to be successful in obtaining the necessary regulatory approvals for our gaming operations on a timely basis, or at all.

Licensing and Regulation under State Law: Our present and future stockholders are and will continue to be subject to review by regulatory agencies. Gaming licenses and/or background investigations (“license”) are required in connection with our management of a State of Kansas owned Lottery Gaming Facility (a casino). Our management personnel, Butler National and/or the managing subsidiaries, the key personnel of all entities may be required to have a Lottery Gaming Facility gaming license prior to conducting operations. The failure of the Company or the key personnel to obtain or retain a license could have a material adverse effect on the Company or on its ability to obtain or retain these licenses in other jurisdictions. Each such State Gaming Agency has broad discretion in granting, renewing, and revoking licenses. Obtaining such licenses and approvals will be time consuming and cannot be assured.

The State of Kansas has approved state-owned Lottery Gaming Facilities, pari-mutuel dog and/or horse racing for non-Indian organizations. The State of Kansas operates a state lottery, keno games, and plans to operate state-owned Lottery Gaming Facilities for the benefit of the State. The Lottery Gaming Facility management contract approval process requires that any entity or person owning one-half of one percent (0.5%) of the ownership interest of the management company must be found suitable to be an owner by the State of Kansas. The Kansas Supreme Court announced its ruling affirming the constitutionality of the Kansas Expanded Lottery Act (KELA) as the law was enacted. There can be no assurances that other constitutionality challenges will not occur.

As a condition to obtaining and maintaining our various gaming approvals, we must submit reports to the Indian Tribe and the respective federal and state regulatory Agencies (the “Agency”). Any person owning or acquiring 5% or more of the Common Stock of the Company must be found suitable by one or more of the agencies or the Indian Tribes (the “Interest”). Any Agency has the authority to require a finding of suitability with respect to any stockholder regardless of the percentage of ownership.

If found unsuitable by any Agency or the Indian Tribe, the stockholder must offer all of the Interest in Company stock held by such stockholder to the Company for cash at the current market bid price less a fifteen percent (15%) administrative charge and the Company must purchase such Interest within six months of the offer. The stockholder is required to pay all costs of investigation with respect to a determination of his/her suitability. In addition, regardless of ownership, each member of the Board of Directors and certain officers of the Company are subject to a finding of suitability by any Agency and the Indian Tribe.

Financial Information about Industry Segments

Information with respect to our industry segments are found at Note 10 of Notes to Consolidated Financial Statements for the three year period ended April 30, 2013.

Narrative Description of Business

Aerospace Products

Aircraft Modification: Our aircraft modification products are performed by Avcon Industries, Inc. Avcon modifies business-type aircraft in Newton, Kansas. Newton is geographically located in the Wichita, Kansas area, the air capital of the world for Aircraft Modifications products. The modifications include aircraft conversion from passenger to freighter configuration, addition of aerial photography capability, stability enhancing modifications for Learjets, and other special mission modifications. Avcon offers avionics, aerodynamic, and stability improvement products for selected business jet aircraft. Avcon makes these modifications to customer-owned aircraft.

The Aircraft Modifications business derives its ability to modify aircraft from the authority granted to it by the Federal Aviation Administration (“FAA”). The FAA grants this authority by issuing a Supplemental Type Certificate (“STC”) after a detailed review of the design, engineering, functional documentation, and demonstrated flight evaluation of the modified aircraft. The STC authorizes Avcon to build the required parts and assemblies under FAA Parts Manufacturing Authority (“PMA”), and to make the installations on applicable aircraft.

We own more than 250 STCs. When the STC is applicable to a multiple number of aircraft it is categorized as a Multiple-Use STC. These Multiple-Use STCs are considered a major asset of the Company. Some of the Multiple-Use STCs include Reduced Vertical Separation Minimums (RVSM), Beechcraft Cargo Door, Beechcraft Extended Door, Learjet AVCON FINS, Learjet Extended Tip Fuel Tanks, Learjet Weight Increase Package, Dassault Falcon 20 Cargo Door, and many special mission modifications.

We operate FAA Authorized Repair Stations. The focus of our business includes the Learjet model 20 and 30 series, Beechcraft King Air, Cessna turbine engine, Cessna multi-engine piston, and Dassault Falcon 20 aircraft. The Repair Stations are a convenience for our customers bringing aircraft to us for modification and maintenance.

Classic Aviation Products: Our mission is to provide and support economical products for older aircraft, often referred to as “Classic” aircraft. As a result of more than 40 years in the aircraft switching unit business, we recognize the potential to support many aircraft in the last half of their expected service life. The business mission of the company promotes us as a designer and supplier of “Classic Aviation Products”. A part of the Classic products are directed to supporting safety of flight for the older aircraft.

Special Mission Electronics: We supply defense-related commercial off the shelf products to various agencies and subcontractors. We provide our customers the opportunity to update or extend the useful life of products with older components and technology. These products include Gun Control Units (GCU) for the Apache Helicopter and other weapon products, including the Hangfire Override Modules (HOM) for all Boeing derived Chain-Gun® cannons, and various weapon-related firing controls, cabling, and test equipment. We have upgraded the design of the GCU and expect to expand sales of the Butler National upgraded units to maintain the Apache fleet and other military aircraft.

Aircraft Fuel System Safety: The FAA issued a Special Federal Aviation Requirement (“SFAR”) No. 88 titled “Fuel Tank System Fault Tolerance Evaluation Requirements” applicable to turbine-powered aircraft certified to carry 30 or more passengers or a certified payload capacity of 7,500 pounds or more. SFAR-88 has now become part of the fuel system safety regulations. One aspect of these regulations requires protection for auxiliary fuel tanks. We are actively working to manufacture TSDs to satisfy this market need.

We worked with the Original Equipment Manufacturer to design the Butler National Transient Suppression Device (“TSD”). The TSD is approved and certified by the Federal Aviation Administration (“FAA”) under STC number ST00846SE and is owned, manufactured, and marketed by us. The TSD is one solution to the requirements of AD 98-20-40 issued by the FAA to protect the aircraft fuel tanks from hazardous energy levels introduced through the wiring of the FQIS.

Professional Services

BNSC provides management services to Indian tribes in connection with the Indian Gaming Regulatory Act of 1988. In the fall of 1990, the Board of Butler National Corporation had the background and experience to develop the opportunities available in the Indian Gaming industry. We have one currently active management agreement; however, the performance of this agreement is contingent upon, and subject to continued approval by the Secretary of Interior, Bureau of Indian Affairs, National Indian Gaming Commission, and the appropriate state, if required.

Generally, a “Management Agreement” between the Indian Tribe (the owner) and Butler National Service Corporation (the manager) is the final approval document issued by the National Indian Gaming Commission (“NIGC”) before a tribe is authorized to conduct Indian gaming. The Management Agreement or Contract is authorized and approved by the NIGC pursuant to the Indian Gaming Regulatory Act of 1988, PL 100-497, 102 Stat. 2467, 25 U.S.C. 2701-2721 (sometimes referred to as “IGRA”). Before the Management Agreement is approved by the NIGC, all required contracts with other parties must be approved; including, (a) the compact with the state for Class III gaming, if applicable, (b) compliance with the requirements of the National Environmental Protection Agency (“NEPA”), (c) a Tribal Gaming Ordinance approved by the NIGC, and (d) Indian land ownership or leases, if applicable, approved by the Bureau of Indian Affairs (“BIA”).

In 1995, BNSC signed a Management Agreement with the Modoc Tribe. Later, a Class III Indian Gaming Compact (a “Compact”) for a gaming establishment (known as “The Stables”) approved by the State of Oklahoma and by the Assistant Secretary, Bureau of Indian Affairs for the U.S. Department of the Interior. The Compact was published in the Federal Register on February 6, 1996, and is, therefore, deemed effective. The initial Compact authorized Class III (Off-Track Betting “OTB”) along with Class II (high stakes bingo) at a Modoc Indian land location within the boundaries of the City of Miami, Oklahoma. A later compact with the State of Oklahoma and the Modoc Tribe authorized certain Class III games under IGRA. Our Management Agreement was approved by the NIGC on January 14, 1997. The Modoc Tribe opened a gaming establishment known as The Stables in September 1998.

BNSC provided consulting and construction management for the development of The Stables and currently manage the establishment for the Modoc Tribe. The Stables facility was expanded in April 2002 to approximately 30,000 square feet and is located south of the Modoc Tribal Headquarters building in Miami, Oklahoma. The complex contains Class III gaming machines, Class III table games, Class II bingo machines, a bar, and a restaurant. The Oklahoma Class III compact for expanded casino gaming was approved June 1, 2005. The Modoc Tribe agreed to amend the Management Agreement to extend the expiration date through September 2018. The operating income, before corporate allocation, has contributed approximately \$795 annually over the past three fiscal years.

We provide management services to the Boot Hill Casino, a “state owned casino” which commenced operations on December 15, 2009 through our subsidiary BHCMC, LLC (“BHCMC”), jointly owned by BNSC and BHC Investment Company, L.C. “BHCI”. “BNSC” had 99.6% ownership of BHCMC, LLC while BHCI had 0.4% ownership through April 30, 2011. The Boot Hill Casino is a destination designed to enhance and re-create the world famous 1879-1880’s experience near the historic Boot Hill destination in Dodge City, Kansas.

On May 1, 2011 BHC Investment Company exercised the option to acquire 100% of the Class A Preferred Interest in BHCMC, LLC. The ownership structure of BHCMC, LLC is now:

<u>Membership Interest</u>	<u>Members of Board of Managers</u>	<u>Equity Ownership</u>	<u>Income (Loss) Sharing</u>
Class A	3	20%	40%
Class B	4	80%	60%

BHCMC, LLC, rents the casino building under the terms of a 25 year lease from BHC Development L.C. “BHCD”. Butler National Corporation, its management, or subsidiaries have no ownership interest in BHCI or BHCD.

The terms of the agreement between the Kansas Lottery and BNSC/BHCMC require the completion of an addition to the Boot Hill Casino. The Phase II development of an adjacent hotel and community owned special events center was funded by a third party, is completed, and open to the public. The Phase II expansion of Boot Hill Casino began in early 2012 and was completed in January 2013. Phase II expansion of the unfinished gaming floor space built during Phase I construction and tenant improvements was funded by tenant improvement leases, gaming machine leases, and casino earnings, with minimum exposure to Butler National Corporation. The Phase II expansion included the interior finish of 15,000 square feet of casino shell and 216 additional gaming machines. Part of the expansion included a breezeway connecting the Boot Hill Casino and the Dodge City special events center (United Wireless Arena). In late January 2013 the snack bar was reopened with additional seating and space as the “Cowboy Cafe.” Boot Hill Casino now has approximately 800 gaming machines on the floor.

Butler National Services, Inc. (“BNSI” or “BNS”) provides monitoring and related repair services of water and wastewater remote pumping stations through electronic surveillance for municipalities and the private sector. On May 1, 2013 we sold our waste water monitoring business (Butler National Services, Inc.) to Beadle Enterprises, LLC.

BCS Design, Inc. (“BCS”) provides licensed architectural services. These services include commercial and industrial building design.

Butler National Service Corporation (“BNSC”) provides management services to the Boot Hill Casino, a “state owned casino” and to The Stables, an “Indian owned casino”.

Patents and Trademarks: We have no patents, trademarks, licenses, franchises, or concessions that need to be held to do business other than the FAA, PMA, and Repair Station licenses. We maintain certain airframe alteration certificates, commonly referred to as Supplemental Type Certificates (“STC’s”), issued to us by the FAA, for the Aircraft Modification and Avionics businesses. The STC, PMA, and Repair Station licenses are not patents or trademarks. The FAA will issue an STC to anyone, provided that the person or entity documents and demonstrates to the FAA that a change to an aircraft configuration does not endanger the safety of flight. The PMA and Repair Station licenses are available to any person or entity, provided that the person or entity maintains the appropriate documentation and follows the appropriate manufacturing, repair and/or service procedures. The FAA requires the aircraft owner to have the STC document in the aircraft log after each modification is complete.

Seasonality: Our business is generally not seasonal.

Customer Arrangements: Except in isolated situations, no special inventory-storage arrangements, merchandise return and allowance policies, or extended payment practices are involved in our business.

We require deposits from our customers for aircraft modifications. We generally collect full payment for services before any modified aircraft is released. Long term projects, such as cargo door modifications and custom modifications projects, require interim payments from the customer.

Governmental Regulations: The Gaming and Aerospace industries are highly regulated and we must maintain our licenses, certifications and pay taxes to continue our operations. Each of our facilities is subject to extensive regulation under the laws, rules and regulations of the jurisdiction where it is located. These laws, rules and regulations generally concern the responsibility, financial stability and charter of the owners, managers, and

persons with financial interest in the operations. Violations of laws or regulations in one jurisdiction could result in disciplinary action in other jurisdictions.

Our businesses are subject to various federal, state and local laws and regulations. These laws and regulations include, but are not limited to, restrictions and conditions concerning aircraft modifications, environmental matter, employees, currency transactions, taxation, zoning and building codes, and marketing and advertising. Such laws and regulations could change or could be interpreted differently in the future or new laws and regulation could be enacted. Material changes, new laws and regulations, or material differences in interpretations by the courts or governmental authorities could adversely affect our operating results.

Backlog: Our backlog as of April 30, 2013, 2012, and 2011, was as follows:

<u>Industry Segment</u> (in thousands)	<u>2013</u>	<u>2012</u>	<u>2011</u>
Aerospace Products	\$ 3,130	\$ 6,977	\$ 9,545
Professional Services.....	179	1,839	423
Total backlog	<u>\$ 3,309</u>	<u>\$ 8,816</u>	<u>\$ 9,968</u>

Our backlog as of July 5, 2013 totaled \$4,018; consisting of \$3,839 and \$179, respectively, for Aerospace Products and Professional Services. The backlog includes firm pending and contract orders, which may not be completed within the next fiscal year. The backlog includes orders to be delivered after fiscal year 2014 in the amount of \$440. This is standard for the industry in which modifications services and related contracts may take several months or years to complete. Such actions force backlog as additional customers request modifications, but must wait for other projects to be completed. There can be no assurance that all orders will be completed or that some may ever commence.

Employees: Other than persons employed by our gaming subsidiaries there were 98 full time and 1 part time employee on April 30, 2013 compared to 107 full time and 3 part time employees on April 30, 2012. As of July 5, 2013, staffing was 86 full time and 1 part time employees. Our staffing at Boot Hill Casino on April 30, 2013 was 215 full time and 63 part time employees and at July 5, 2013 was 213 full time employees and 60 part time employees. None of the employees are subject to any collective bargaining agreements.

Financial Information about Foreign and Domestic Operations, and Export Sales: International sales are made through authorized installation centers and direct to foreign customers to be completed and included in domestic operations. The sales to our customers outside the U.S. consisted of approximately \$3,205 in the year ended April 30, 2013, \$2,829 in the year ended April 30, 2012, and \$1,769 in the year ended April 30, 2011. Sales from international operations are subject to changes in domestic and foreign laws, regulations and controls. All sales are made in U.S. dollars.

Executive Officers of the Registrant: The following people are executive officers of the registrant:

R. Warren Wagoner, 61 years old, Chairman of the Board of Directors
Clark D. Stewart, 73 years old, President and Chief Executive Officer

Christopher J. Reedy, 47 years old, Vice President and Secretary
Angela D. Shinabargar, 49 years old, Chief Financial Officer
Craig D. Stewart, 39 years old, Vice President

Item 1A. RISK FACTORS

Statements made in this report, the Annual Report on Form 10-K the Annual Report to Stockholders in which this report is made a part, other reports and proxy statements filed with the Securities and Exchange Commission, communications to stockholders, press releases, and oral statements made by representatives of the Company that are not historical in nature, or that state the Company or management intentions, hopes, beliefs, expectations or predictions of the future, may constitute “forward-looking statements” within the meaning of Section 21E of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”). Forward looking statements can often be identified by the use of forward-looking terminology, such as “could,” “should,” “will,” “intended,” “continue,” “believe,” “may,” “expect,” “hope,” “anticipate,” “goal,” “forecast,” “plan,” “guidance” or “estimate” or the negative of these words, variations thereof or similar expressions. Forward-looking statements are not guarantees of future performance or results. They involve risks, uncertainties, and assumptions. It is important to note that any such performance and actual results, financial condition or business, could differ materially from those expressed in such forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Item 1A. Risk Factors and elsewhere herein or in other reports filed with the SEC. Other unforeseen factors not identified herein could also have such an effect. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results, financial condition or business over time.

Defense Spending: We have concerns regarding the Budget Control Act of 2011 (the “Budget Act”) that was signed into law on August 2, 2011. The law to reduce federal government expenditures over the next 10 years may result in reduced U.S. government funding for the defense industry. The Budget Act set \$900 billion in immediate costs to discretionary government spending for 2012 through 2021. The impact of any resulting reductions in defense appropriations, and/or reduction in U.S. spending could negatively affect the Company’s revenues for our avionics defense products.

General Governmental Regulations of Financial Reporting: The Company reports information to its stockholders and the general public pursuant to the regulations of various Federal and State Commissions and Agencies. These regulations require conformance by the Company to Generally Accepted Accounting Principles, to pronouncements of the Public Company Accounting Oversight Board (“PCAOB”), and to accounting and reporting directives issued by the commissions and agencies. The political and regulatory environment in which the Company is operating is dynamic and rapidly changing. Adoption and/or changes in regulations defining accounting procedures or reporting requirements could have a materially adverse effect on the Company. The Company depends upon the financial institutions and capital markets for financing to continue operations and to finance and develop new opportunities.

General Governmental Regulation of Gaming: The approved and proposed gaming management operations are and will be subject to extensive gaming laws and regulations, many of which were recently adopted and have not been the subject of definitive interpretations and are still subject to proposed amendments and regulation. The political and regulatory environment in which the Company is and will be operating, with respect to gaming activities on both non-Indian and Indian land, is dynamic and rapidly changing. Adoption and/or changes in gaming laws and regulations could have a materially adverse effect on the Company. Interference with the execution of the steps defined by the gaming laws and regulations by interested third parties, although not included by the regulations, may significantly slow the approval process.

Fuel and Energy Costs: Our business depends on use of the aircraft for business transportation, freight transportation, and many special mission applications. Should our customers be unable to purchase fuel and energy and/or be unable to pass on disproportionate costs to their customers, the use of business and military

aircraft by our customers may be curtailed. The value of the aircraft related assets would decrease and the revenue related to the aircraft equipment and modifications would decrease. These events could have a material adverse effect on our Company.

National Economy and Financing:

The status of the national economy and its slow growth outlook could be disproportionately affected by volatility and disruption of capital and credit markets and adverse changes in the global economy any of which could negatively impact our financial performance and our ability to access financing. The ongoing credit and liquidity crisis has restricted the availability of capital and has caused capital (if available) to be much higher than it has traditionally been.

Adverse conditions in the local, regional, national and global markets have negatively affected our operations, and may continue to negatively affect our operations in the future. During periods of economic contraction, our revenues may decrease while some of our costs remain fixed or even increase, resulting in decreased earnings. Gaming and Aviation activities we offer represent discretionary expenditures and participation in such activities may decline during economic downturns, during which consumers generally earn less disposable income. Even an uncertain economic outlook may adversely affect consumer spending in our gaming operations and related facilities, as consumers spend less in anticipation of a potential economic downturn. Furthermore, other uncertainties, including national and global economic conditions, terrorist attacks or other global events, could adversely affect consumer spending and adversely affect our operations.

War, Terrorism and Natural Disasters:

Acts of terrorism and war, natural disasters and severe weather may negatively impact our future profits.

Terrorist attacks and other acts of war or hostility create many economic and political uncertainties. We cannot predict the extent to which terrorism, security alerts or war, or hostilities throughout the world will continue to directly or indirectly impact our business and operating results. As a consequence of the threat of terrorist attacks and other acts of war or hostility in the future, premiums for a variety of insurance products have increased, and some types of insurance are no longer available. Given current conditions in the global insurance markets, we are substantially uninsured for losses and interruptions caused by terrorist acts and acts of war. If any such event were to affect our properties, we would likely be adversely impacted.

In addition, natural disasters such as major fires, floods, tornados, hurricanes and earthquakes could also adversely impact our business and operating results. Such events could lead to the loss of use of one or more of the facilities for which we provide management services for an extended period of time and disrupt our ability to attract customers to certain of our gaming facilities. If any such event were to affect our properties, we would likely be adversely impacted.

In most situations, we have insurance that should provide coverage for portions of any losses from a natural disaster, but it is subject to deductibles and maximum payouts in many cases. Although we may be covered by insurance from a natural disaster, the timing of our receipt of insurance proceeds, if any, is beyond our control.

Key Personnel: Our inability to retain key personnel may be critical to our ability to achieve our objectives. Key personnel are particularly important in maintaining relationships with Indian Tribes and with the operations licensed by the FAA, State of Kansas and the NIGC. Loss of any such personnel could have a materially adverse effect on the Company.

Our success depends heavily upon the continued contributions of these key persons, whose knowledge, leadership and technical expertise would be difficult to replace, and on our ability to attract and retain experienced professional staff. We have an employment agreement with our CEO; however, we do not maintain key person insurance on any of these key persons. If we were to lose the services of these key persons, our ability to execute our business plan would be harmed and we may be forced to cease operations until such time as we could hire suitable replacements.

Competition: Increased competition, including the entry of new competitors, the introduction of new products by new and existing competitors, or price competition, could have a materially adverse effect on the Company. Additionally, because of the rapid rate at which the gaming industry has expanded, and continues to expand, the gaming industry may be at risk of market saturation, both as to specific areas and generally. Overbuilding of gaming facilities by others at particular sites chosen by us may have a material adverse effect on our ability to compete and on our operations.

Major Customers: The termination of contracts with major customers or renegotiation of these contracts at less cost-effective terms could have a materially adverse effect on the Company. Irregularities in financial accounting procedures, financial reporting requirements and regulatory reporting requirements could cause major customers to become unstable and be unable to complete business transactions which could have a materially adverse effect on the Company. We have no “major customers” (10 percent or more of consolidated revenue). During the fiscal year ending April 30, 2013 we derived 14.8% of our revenue from five customers.

Product Development: Difficulties or delays in the development, production, testing and marketing of products, could have a materially adverse effect. Our Aerospace business is subject, in part, to regulatory procedures and administration enacted by and/or administered by the FAA. Accordingly, our business may be adversely affected in the event the Company is unable to comply with such regulations relative to its current products and/or if any new products and/or services to be offered by the Company can or may not be formally approved by such agency. Moreover, our proposed new aviation modification products will depend upon the issuance by the FAA of a Supplemental Type Certificate with related parts manufacturing authority and repair station license, the issuance of which no assurances can be given.

International Sales: Our international sales may be subject to local government laws, regulations and procurement policies and practices which may differ from U.S. Government regulation, including regulations related to products being installed on aircraft, exchange controls, as well to varying currency, geo-political and economic risks. We also are exposed to risks associated with any relationships with foreign representatives, consultants, partners and suppliers for international sales and operations.

Adverse Actions: Adverse actions by regulators, customers, competitors and/or professionals engaged to regulate or to serve us may cause project delays and excessive administrative costs are not controllable by us.

Administrative Expenditures: Higher service, administrative, additional regulatory requirements, or general expenses occasioned by the need for additional legal, consulting, advertising, marketing, or administrative expenditures may decrease income to be recognized by the Company.

Strategic Acquisitions and Investments: We continually review, evaluate and consider potential investments and acquisitions in pursuing our business strategy. In evaluating such transactions, we are making difficult judgments regarding the value of business opportunities, technologies and other assets, and the risk and cost of potential liabilities. Acquisitions and investments involve certain other risks and uncertainties, including the difficulty in integrating newly-acquired businesses, the challenges in reaching our strategic objectives and other benefits expected from acquisitions or investments. Other risks include the diversion of our attention and resources from our current operations, the potential of impairment of acquired assets and the potential loss of key employees of acquired businesses.

Joint Ventures and Other Arrangements: We have entered, and may continue to enter, into joint venture and other arrangements. These activities involve risk and uncertainties, including the risk of the joint venture or applicable entity failing to satisfy its obligations, which may result in certain liabilities to us for guarantees or other commitments. Additional risks involve the challenges in achieving strategic objectives and expected benefits of the business arrangement, including the risk of conflicts arising between us and others and the difficulty of managing and resolving such conflicts and the difficulty of managing or otherwise monitoring such business arrangements.

Impairment of Intangible Property: We evaluate intangible assets for impairment annually during the fourth quarter and in any interim period in which circumstances arise that indicate our intangible asset may be impaired. Indicators of impairment include, but are not limited to, the loss of significant business and, or significant adverse changes in industry or market conditions. No events occurred during the periods presented that indicated the existence of an impairment with respect to our intangible assets related to the JET acquisition. Preparation of forecasts for use in the long-range plan and the selection of the discount rate involve significant judgments that we base primarily on existing firm orders, expected future orders and general market conditions. Significant changes in these forecasts or the discount rate selected could affect the estimated fair value and could result in an impairment charge in a future period.

Low-Priced Penny Stock: Because our common stock is deemed a low-priced “Penny” stock, an investment in our common stock should be considered high risk and subject to marketability restrictions.

Since our common stock is a penny stock, as defined in Rule 3a51-1 under the Securities Exchange Act, it will be more difficult for investors to liquidate their investment even if and when a market develops for the common stock. Until the trading price of the common stock rises above \$5.00 per share, if ever, trading in the common stock is subject to the penny stock rules of the Securities Exchange Act specified in rules 15g-1 through 15g-10. Those rules require broker-dealers, before effecting transactions in any penny stock, to:

- Deliver to the customer, and obtain a written receipt for, a disclosure document;
- Disclose certain price information about the stock;
- Disclose the amount of compensation received by the broker-dealer or any associated person of the broker-dealer;
- Send monthly statements to customers with market and price information about the penny stock; and
- In some circumstances, approve the purchaser’s account under certain standards and deliver written statements to the customer with information specified in the rules.

Consequently, the penny stock rules may restrict the ability or willingness of broker-dealers to sell the common stock and may affect the ability of holders to sell their common stock in the secondary market and the price at which such holders can sell any such securities. These additional procedures could also limit our ability to raise additional capital in the future.

Governance Features: Some provisions of our Articles of Incorporation and Bylaws could make it more difficult for a potential acquirer to acquire a majority of our outstanding voting stock. This includes, but is not limited to, provisions that: provide for a classified Board of Directors, prohibit stockholders from taking action by written consent, and restrict the ability of stockholders to call special meetings. We are also subject to provisions of Kansas law K.S.A. 17-12, 101 that prohibit us from engaging in any business combination with any interested stockholder for a period of three years from the date the person became an interested stockholder, unless certain conditions are met, which could have the effect of delaying or preventing a change of control.

Regulation Under Federal Aviation Administration: Our Aerospace business is subject to regulation by the Federal Aviation Administration (“FAA”). We manufacture products and parts under FAA Parts Manufacturing Authority (PMA) requiring qualification and traceability of all materials and vendors used by us. We make aircraft modifications pursuant to the authority granted by Supplemental Type Certificates issued by the FAA. We repair aircraft parts pursuant to the authority granted by our FAA Authorized Repair Station. Violation or changes to FAA regulations could be detrimental to our operations.

Licensing and Regulation under Federal Indian Law: Gaming on Indian land is extensively regulated by Federal, State, and Tribal governments and authorities. Regulatory changes could limit or otherwise materially affect the types of gaming that may be conducted on Indian Land. All aspects of our business operations on Indian Lands are subject to approval, regulation, and oversight by the Bureau of Indian Affairs (“BIA”), the Secretary of the United States Department of the Interior (“Secretary”), and the National Indian Gaming Commission (“NIGC”). Our management of Class III gaming operations is also subject to approval of a Class

III Gaming Compact between the Indian Tribe and the respective state. Failure to comply with applicable laws or regulations, whether Federal, State or Tribal, could result in, among other things, the termination of any management agreements which would have a material adverse effect on us. We are also required to comply with background checks as specified in Tribal-State Compacts before we can manage gaming operations on Indian land. There can be no assurance that we would continue to be successful in obtaining the necessary regulatory approvals for our gaming operations on a timely basis, or at all.

Licensing and Regulation under State Law: Our present and future stockholders are and will continue to be subject to review by regulatory agencies. Gaming licenses and/or background investigations (“license”) are required in connection with our management of a State of Kansas owned Lottery Gaming Facility (a casino). Our management personnel, Butler National and/or the managing subsidiaries, the key personnel of all entities may be required to have a Lottery Gaming Facility gaming license prior to conducting operations. The failure of the Company or the key personnel to obtain or retain a license could have a material adverse effect on the Company or on its ability to obtain or retain these licenses in other jurisdictions. Each such State Gaming Agency has broad discretion in granting, renewing, and revoking licenses. Obtaining such licenses and approvals will be time consuming and cannot be assured.

The State of Kansas has approved state-owned Lottery Gaming Facilities, pari-mutuel dog and/or horse racing for non-Indian organizations. The State of Kansas operates a state lottery, keno games, and plans to operate state-owned Lottery Gaming Facilities for the benefit of the State. The Lottery Gaming Facility management contract approval process requires that any entity or person owning one-half of one percent (0.5%) of the ownership interest of the management company must be found suitable to be an owner by the State of Kansas. The Kansas Supreme Court announced its ruling affirming the constitutionality of the Kansas Expanded Lottery Act (KELA) as the law was enacted. There can be no assurances that other constitutionality challenges will not occur.

As a condition to obtaining and maintaining our various gaming approvals, we must submit reports to the Indian Tribe and the respective federal and state regulatory Agencies (the “Agency”). Any person owning or acquiring 5% or more of the Common Stock of the Company must be found suitable by one or more of the agencies or the Indian Tribes (the “Interest”). Any Agency has the authority to require a finding of suitability with respect to any stockholder regardless of the percentage of ownership.

If found unsuitable by any Agency or the Indian Tribe, the stockholder must offer all of the Interest in Company stock held by such stockholder to the Company for cash at the current market bid price less a fifteen percent (15%) administrative charge and the Company must purchase such Interest within six months of the offer. The stockholder is required to pay all costs of investigation with respect to a determination of his/her suitability. In addition, regardless of ownership, each member of the Board of Directors and certain officers of the Company are subject to a finding of suitability by any Agency and the Indian Tribe.

We are Subject to Extensive Taxation Policies, Which may Harm our Business: The federal government has, from time to time, considered a federal tax on casino revenues and may consider such a tax in the future. If such an increase were to be enacted, our ability to incur additional indebtedness in the future to finance casino development projects could be materially and adversely affected. In addition, gaming companies are currently subject to significant state and local taxes and fees, in addition to normal federal and state corporate income taxes, and such taxes and fees are subject to increase at any time.

Boot Hill Casino, pursuant to its Management Contract with the State of Kansas pays total taxes between 27% and 31% of gross gaming revenue, based on achievement of the following revenue levels: 27% on gross gaming revenue up to \$180 million, 29% on amounts from \$180 million to \$220 million, and 31% on amounts above \$220 million in gross gaming revenue. Boot Hill Casino is contractually obligated to pay its proportionate share of certain expenses incurred by the Kansas Lottery Commission and the Kansas Racing and Gaming Commission, which have ranged from \$2.2 to \$8.9 million on an annual basis.

Item 2. PROPERTIES

Corporate:

Our corporate headquarters are located in a 9,000 square foot owned facility for office and storage space at 19920 West 161st Street, in Olathe, Kansas.

Aerospace Products:

Butler National Corporation has an office and manufacturing operations at 4654 South Ash Ave, Tempe, Arizona in a 16,110 square foot owned facility.

Kings Avionics, Inc. is located at 280 Gardner Dr., Ste. 3, New Century, Kansas in a 19,500 square foot facility with annual rent of approximately \$168.

Avcon Industries, Inc. is located at 714 North Oliver Road, Newton, Kansas, in a 42,700 square foot leased facility of hangar and office space at the municipal airport in Newton, Kansas, at an annual rent of approximately \$150.

Butler National Aircraft Certification Center is located at One Aero Plaza, New Century, Kansas in a 36,000 square foot facility with hangar space with a seven year lease of Hangar 5 at the New Century Airport in New Century, Kansas. The annual rent is approximately \$48.

Professional Services:

Butler National Services, Inc. is located at 2772 NW 31st Ave, Ft. Lauderdale, Florida at an annual rent of approximately \$34. On May 1, 2013 we sold our waste water monitoring business (Butler National Services, Inc.) to Beadle Enterprises, LLC.

BHCMC, LLC is located at 4000 W. Comanche in Dodge City, Kansas in a 60,000 square feet building known as the Boot Hill Casino facility at an annual rent of approximately \$4,606 in fiscal year ended April 30, 2013 and an estimate of \$4,652 in fiscal year ended April 30, 2014.

BCS Design, Inc. has a 10,800 square foot owned facility located at 19930 W. 161st, Olathe, Kansas.

Management believes our properties have been well maintained, are suitable and adequate for us to operate at present levels, and the current productive capacity. The utilization of these facilities is appropriate for our existing real estate requirements. However, significant increases in customer orders and/or future acquisitions may require expansion of our current properties or the addition of new properties.

Item 3. LEGAL PROCEEDINGS

BHCMC, LLC and BHC Development LC filed a lawsuit in the United States District Court on June 21, 2012 against Bally Gaming Inc. doing business as Bally Technologies for breach of contract and negligent misrepresentation, among other claims related to the performance of computer software systems. BHCMC and BHC Development seek damages in excess of \$75. Bally's has counterclaimed for an alleged breach of contract and an alleged continued use of the system. Bally's alleges damages in excess of \$411 which BHCMC and BHC Development deny. BHCMC and BHC Development are vigorously contesting the counterclaims.

As of July 5, 2013, there are no other significant known legal proceedings pending against us. We consider all such unknown proceedings, if any, to be ordinary litigation incident to the character of the business. We believe that the resolution of any claims will not, individually or in the aggregate, have a material adverse effect on the financial position, results of operations, or liquidity of the Company.

Item 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management Discussion and Analysis (MD&A) is intended to help the reader understand our results of operations and financial condition. This MD&A is provided as a supplement to, and should be read in conjunction with, our financial statements and the accompanying notes to the financial statements (Notes).

Our fiscal year ends on April 30. Fiscal years 2013, 2012 and 2011 consisted of 52 weeks and ended on April 30, 2013, April 30, 2012 and April 30, 2011, respectively. All references to years in this MD&A represent fiscal years unless otherwise noted.

Management Overview

Management is focused on increasing long-term shareholder value from increased cash generation, earnings growth, and prudently managing capital expenditures. We plan to do this by continuing to drive increased revenues from product and service innovations, strategic acquisitions, and targeted marketing programs.

Our revenues are primarily derived from two very different business segments; Aerospace Products and Professional Services. These segments operate through various Butler National subsidiaries and affiliates listed on Exhibit 21 of this Form 10K.

Aerospace Products derives its revenues by designing, engineering, manufacturing, installing, servicing, and repairing products for classic and current production aircraft. These products include JET autopilot service and repairs, Avcon provisions for special mission equipment installations, Kings Avionics equipment sales and installation, and Butler National electronic controls and safety equipment manufacture and sales. Aerospace customers range in size from owners and operators of small single engine airplanes to owners and operators of large commercial and military aircraft. Aerospace Products are sold to and serviced for customers located in many countries of the world.

Aerospace is the legacy part of the Butler National business. Organized over 50 years ago, this business is based upon design engineering and installation innovations to enhance and support products related to airplanes and ground support equipment. These new products included: in the 1960's, aircraft electronic load sharing and system switching equipment, a number of airplane electronic navigation instruments, radios and transponders; in the 1970's, ground based VOR navigation equipment sold worldwide and GPS equipment as we know it today in civilian use; in the 1980's, special mission modifications to business jets for aerial surveillance and conversion of passenger configurations to cargo; in the 1990's, classic aviation support of aging airplanes with enhanced protection of electrical systems through transient suppression devices (TSD), control electronics for military weapon systems and improved aerodynamic control products (Avcon Fins) allowing stability at higher gross weights for additional special mission applications; in the 2000's, improved accuracy of the airspeed and altimeter systems to allow less vertical separation between flying airplanes (RVSM) and acquisition of the JET autopilot product line to support and replace aged electronic equipment in the classic fleet of Learjet airplanes; and in the 2010's, the acquisition of Kings Avionics to provide additional classic airplane support by retrofit of avionics from the past 40 years to modern state of the art equipment for sale worldwide using FAA supplemental type certification to make the installations (STC) acceptable to foreign governments for installation abroad.

Aerospace continues to be a focus for new product design and development. We expect this segment will continue to grow in the future. To address the three to five year business cycles related to the Aerospace industry, in the 1990's, we began providing Professional Services to markets outside the Aerospace industry.

Professional Services derives its revenue from (a) professional management services in the gaming industry through Butler National Service Corporation ("BNSC") and BHCMC, LLC ("BHCMC"), (b) licensed architectural services to the business community through BCS Design ("BCS"), and (c) monitoring services to owners and operators of intelligence gathering systems through Butler National Services, Inc. ("BNSI").

Professional Services grew from the experiences gained from the BNSI monitoring products and services of the 1980's including SCADA systems and products including digital voice technology for the telephone industry and nuclear plant and civil defense warning systems. BNSI sold these Professional Services and products to utilities and municipalities resulting in relatively stable revenue streams. The defense warning products were sold in the 1980's to a third party leaving only the BNSI service business in Florida (on May 1, 2013 we sold our waste water monitoring business (Butler National Services, Inc.) to Beadle Enterprises, LLC.

In the early 1990's, management determined that more revenue stable business units were needed to sustain the Company. Members of the Board of Directors had contacts with several American Indian tribes, other members of the Board were associated with gaming operators in Las Vegas and the 1988 Indian Gaming Regulatory Act (IGRA) which was relatively new to the industry. We reached out to various Indian tribes with land in the area to explore the opportunities for operations under IGRA. This resulted in the "Stables" an Indian owned casino on Modoc Indian land opened in September 1998 developed and managed by BNSC. The Stables Management Agreement has been available on the website maintained by the National Indian Gaming Commission ("NIGC"). The Stables Management Agreement was subsequently amended by various amendments dated April 30, 2003 (the "First Amendment"), November 30, 2006 (the "Second Amendment"), October 19, 2009 (the "Third Amendment") and September 22, 2011 (the "Fourth Amendment"). The result of the First Amendment, Second Amendment, Third Amendment and Fourth Amendment is to provide that twenty (20%) of net profits from The Stables are distributed to BNSC, to end per the management agreement the participation of the Miami Indian tribe from the business and to extend the duration of the Stables Management Agreement through September 30, 2018. BCS Design has also assisted with the design, construction and continued refurbishment of the Stables.

From this experience with IGRA and the success of the Indian gaming industry, we determined that the IGRA model may be applicable for state owned gaming. We spent Butler National Corporation innovation, legal and market development funds to design and encourage the use of an Indian owned gaming model in the State of Kansas. From these efforts, Kansas enacted the Kansas Expanded Lottery Act (KELA) in 2007 allowing four state owned casinos to be developed in Kansas. In 2007, BNSC made application to manage a state owned casino. In 2008, BNSC was awarded a fifteen year term to manage the Boot Hill Casino in Dodge City, Kansas pursuant to a Lottery Gaming Facility Management Contract (the "Boot Hill Casino Management Contract"). The Boot Hill Casino Management Contract was amended on December 29, 2009 (the "First Amendment to the Boot Hill Casino Management Contract") to bring the definition of "Fiscal Year" in line with the fiscal year of BNSC (May 1 to April 30). BHCMC was organized to be the manager of the Boot Hill Casino in Dodge City, Kansas. The casino opened in December 2009.

The Phase II expansion of Boot Hill Casino began in early 2012 and was completed in January 2013. The unfinished gaming floor space built during Phase I construction and tenant improvements was funded by tenant improvement leases, gaming machine leases, and casino earnings, with minimum exposure to Butler National Corporation. The Phase II expansion included the interior finish of 15,000 square feet of casino shell and 216 additional gaming machines. Part of the expansion included a breezeway connecting the Boot Hill Casino and the Dodge City special events center (United Wireless Arena). In late January 2013 the snack bar was reopened with additional seating and space as the "Cowboy Cafe." Boot Hill Casino now has approximately 800 gaming machines on the floor.

By 2009, Butler National Corporation was clearly established into two segments; the Professional Services and Aerospace Products business segments.

Results Overview

Our fiscal 2013 revenue decreased 7% to \$50.8 million compared to \$54.4 million in fiscal 2012. In fiscal 2013 the Professional Services revenue was relatively unchanged at \$37.2 million. There was a decrease of 21% in the Aerospace Products revenue in fiscal 2013. We anticipate future domestic military spending reductions and continued slow growth of the United States economy.

Our fiscal 2013 net income decreased 108% to a net loss of \$148 compared to net income of \$1,900 in fiscal 2012. Diluted earnings per share decreased to \$(0.00) for fiscal 2013 compared to \$0.03 in fiscal 2012. We continue focusing on our margin expansion initiatives, including efficiencies in our implementation and operational processes and controlling general and administrative expenses. The fiscal 2013 operating margin was 3%, a decrease of seven percentage points from our margin of 10% in fiscal 2012.

Revenues:

Revenue decreased 7% to \$50.8 fiscal 2013, compared to \$54.4 million in fiscal 2012.

- Professional Services derives its revenue from professional management services in the gaming industry through BNSC and BHCMC, licensed architectural services to the business community through BCS Design and monitoring services to owners and operators of SCADA through BNSI. Revenue from Professional Services was relatively unchanged at \$37.2 million in fiscal 2013 and 2012.
- Aerospace Products derives its revenue by designing, engineering, manufacturing, installing, servicing and repairing products for classic and current production aircraft. Aerospace Products revenue decreased 21% to \$13.6 million in fiscal 2013 compared to \$17.2 million in fiscal 2012. We anticipate future domestic military spending reductions and continued slow growth of the United States economy.

Costs and expenses:

Costs and expenses related to Professional Services and Aerospace Products include the cost of engineering, labor, materials, equipment utilization, control systems, security and occupancy.

Costs and expenses increased 0.8% in fiscal 2013 to \$49.3 million compared to \$48.9 million in fiscal 2012. Costs and expenses were 97% of total revenue in fiscal 2013, compared to 90% of total revenue in fiscal 2012. The increased costs and expenses as a percent of total revenue in fiscal 2013 were primarily driven by an increase in labor, material, depreciation and amortization expenses.

Marketing and advertising expenses as a percent of total revenue was 8% in fiscal 2013, as compared to 10% in fiscal 2012. These expenses decreased 19% to \$4.2 million in fiscal 2013, from \$5.2 million in fiscal 2012. Marketing and advertising expenses include advertising, sales and marketing labor, gaming development costs, and casino and product promotions. Boot Hill Casino marketing expenses increased \$491, however other gaming development expenses decreased. The Boot Hill Casino increase was primarily attributable to additional focus in the Professional Services business reflecting a marketing plan to target specific marketing sectors to increase destination casino revenue. The Boot Hill Casino definition of the market includes the area east from the Rocky Mountains to the Mississippi River and the southern Canadian border to the northern border of Mexico.

Employee benefits expenses as a percent of total revenue was 4% in fiscal 2013, compared to 5% in fiscal 2012. These expenses decreased 25% to \$2.2 million in fiscal 2013, from \$2.9 million in fiscal 2012. These expenses include the employers' share of all federal, state and local taxes, paid time off for vacation, holidays and illness, employee health and life insurance programs and employer matching contributions to retirement plans. The decreased expenses are related to a decrease in the number of employees in Professional Services.

Depreciation and amortization expenses as a percent of total revenue was 6% in fiscal 2013, compared to 4% in fiscal 2012. These expenses increased 49% to \$3.3 million in fiscal 2013, from \$2.2 million in fiscal 2012. These expenses include depreciation related to owned assets being depreciated over various useful lives and amortization of intangible items including the Kansas privilege fee related to the Boot Hill Casino being expensed over the term of the gaming contract with the State of Kansas. Phase II expansion to Boot Hill Casino was formally completed in early January 2013 and we began depreciation on \$4.9 million of assets with various useful lives. BHCMC, LLC depreciation and amortization expense for fiscal 2013 was \$1.3 million compared to \$327 in fiscal 2012.

General, administrative and other expenses as a percent of total revenue was 14% in fiscal 2013, compared to 12% in fiscal 2012. These expenses increased 5% to \$7.1 million in fiscal 2013, from \$6.8 million in fiscal 2012. The increase reflects increased costs of administrative personnel in Professional Services, increased legal fees and expenses, and increased outside professional consulting fees related to working within the Kansas gaming regulations. Increased insurance costs accounted for approximately 54% of the increase.

Other income (expense):

Interest and other expenses were \$1.5 million in fiscal 2013 compared with interest and other expenses of \$748 in fiscal 2012, an increase of \$763, 102%, from fiscal 2012 to fiscal 2013. Interest of \$1.2 million was related to obligations of BHCMC, LLC.

Operations by Segment

We have two operating segments, Professional Services and Aerospace Products. The Professional Services segment includes revenue contributions and expenditures associated with monitoring services for SCADA systems owned by others, professional architectural services and casino management services. Aerospace Products derives its revenue by designing, engineering, manufacturing, installing, servicing and repairing products for classic and current production aircraft.

Professional Services

- Revenue from Professional Services were relatively unchanged at \$37.2 million in fiscal 2013 and fiscal 2012.

In the fiscal 2013 Boot Hill Casino received gross receipts for the State of Kansas of \$43.2 million compared to \$43.6 million in fiscal 2012. Mandated fees, taxes and distributions reduced gross receipts by \$13.9 million resulting in gaming revenue of \$29.3 million in fiscal 2013 compared to \$28.9 million in fiscal 2012 an increase of 1.4%.

The remaining management and Professional Services revenue include professional management services in the gaming industry, licensed architectural services, food, beverage, and retail from Boot Hill Casino, and monitoring services for SCADA systems. Gaming related revenue including food, beverage, and retail decreased 5.7% to \$3.3 million in fiscal 2013 compared to \$3.5 million in fiscal 2012. Professional Services revenue including architectural, engineering and monitoring services decreased 4.5% to \$4.6 million in fiscal 2013.

- Costs increased 4% in fiscal 2013 to \$21.1 million compared to \$20.3 million in fiscal 2012. Costs were 57% of segment total revenue in fiscal 2013, compared to 55% of segment total revenue in fiscal 2012. The increase in direct costs were a result of additional electronic gaming machines and additional table games.
- Expenses decreased 6% in fiscal 2013 to \$13.1 million compared to \$14 million in fiscal 2012. Expenses were 35% of segment total revenue in fiscal 2013, compared to 38% of segment total revenue in fiscal 2012.

Aerospace Products

- Revenue decreased 21% to \$13.6 million in fiscal 2013 compared to \$17.2 million in fiscal 2012. This decrease is attributable to reduced revenue of \$3.6 million in the Aerospace segment. We anticipate future domestic military spending reductions and continued slow growth of the United States economy. In an effort to offset decreased domestic military spending, we have invested in the development of several STCs. These STCs are state of the art avionics and we are aggressively marketing both domestically and internationally.
- Costs were relatively unchanged in fiscal 2013 at \$11.5 million compared to fiscal 2012. Costs were 84% of segment total revenue in fiscal 2013, compared to 67% of segment total revenue in fiscal 2012.
- Expenses increased 18% in fiscal 2013 at \$3.7 million compared to \$3.1 million in fiscal 2012. Expenses were 27% of segment total revenue in fiscal 2013, compared to 18% of segment total revenue in fiscal 2012.

Revenues:

Revenue increased 17% to \$54.4 million in fiscal 2012, compared to \$46.3 million in fiscal 2011.

- Professional Services derives its revenue from professional management services in the gaming industry through BNSC and BHCMC, licensed architectural, and engineering services to the business community through BCS Design and monitoring services to owners and operators of SCADA through BNSI. Revenue from Professional Services increased 36% from \$27.4 million in fiscal 2011 to \$37.2 million in fiscal 2012. The increase in Professional Services revenue was driven by increased revenue from Boot Hill Casino of \$9.7 million and all other Professional Services of \$111.
- Aerospace Products derives its revenue by designing, engineering, manufacturing, installing, servicing and repairing products for classic and current production aircraft. Aerospace Products revenue decreased 9% in fiscal 2012, compared to \$18.9 million in fiscal 2011. This decrease is attributable to decreases in Aerospace Products. We anticipate future domestic military spending reductions and continued slow growth of the United States economy.

Costs and expenses:

Costs and expenses related to Professional Services and Aerospace Products include the cost of engineering, labor, materials, equipment utilization, control systems, security and occupancy.

Costs and expenses increased 12% in fiscal 2012 to \$48.9 million compared to \$43.5 million in fiscal 2011. Costs and expenses were 90% of total revenue in fiscal 2012, compared to 94% of total revenue in fiscal 2011.

Marketing and advertising expenses as a percent of total revenue was 10% in fiscal 2012, compared to 7% in fiscal 2011. These expenses increased 63% to \$5.2 million in fiscal 2012, from \$3.2 million in fiscal 2011. Marketing and advertising expenses include advertising, sales and marketing labor, gaming development costs, and casino and product promotions. Boot Hill Casino marketing expenses increased \$862 or 62% from fiscal 2011. The marketing plan is to target specific marketing sectors to increase destination casino revenue. The Boot Hill Casino definition of the market includes the area east from the Rocky Mountains to the Mississippi River and the southern Canadian border to the northern border of Mexico.

Employee benefits expenses as a percent of total revenue was 5% in fiscal 2012 and fiscal 2011. These expenses increased 26% to \$2.9 million in fiscal 2012, from \$2.3 million in fiscal 2011. These expenses include the employers' share of all federal, state and local taxes, paid time off for vacation, holidays and illness, employee health and life insurance programs and employer matching contributions to retirement plans. The increased expenses are related to an increase in the number of employees in Professional Services. The expense for health insurance and workers compensation however continues to increase on a per employee basis.

Depreciation and amortization expenses as a percent of total revenue was 4% in fiscal 2012, compared to 3% in fiscal 2011. These expenses increased 56% to \$2.2 million in fiscal 2012, from \$1.4 million in fiscal 2011. These expenses include depreciation related to owned assets being depreciated over various useful lives and amortization of intangible items including the Kansas privilege fee related to the Boot Hill Casino being expensed over the term of the gaming contract with the State of Kansas. BHCMC, LLC depreciation and amortization expense for fiscal 2012 was \$327 compared to \$17 in fiscal 2011.

General, administrative and other expenses as a percent of total revenue was 12% in fiscal 2012, compared to 13% in fiscal 2011. These expenses increased 17% to \$6.8 million in fiscal 2012, from \$5.8 million in fiscal 2011. The increase reflects an increase in the number of administrative personnel in Professional Services.

Other income (expense):

Interest and other expenses were \$747 in fiscal 2012 compared with interest and other expenses of \$399 in fiscal 2011, an increase of \$348, or 87%, from fiscal 2011. Interest of \$365 was related to obligations of BHCMC, LLC.

Professional Services

- Revenue from Professional Services increased 36% to \$37.2 million in fiscal 2012 from \$27.4 million in fiscal 2011. The increase in Professional Services revenue was driven by increased revenue from gaming activities of \$9.7 million and other management and Professional Services of \$111.

In fiscal 2012 Boot Hill Casino received gross receipts for the State of Kansas of \$43.6 million compared to \$39.1 million in fiscal 2011. Mandated fees, taxes and distributions reduced gross receipts by \$14.7 million resulting in gaming revenue of \$28.9 million in fiscal 2012 compared to \$19.6 million in fiscal 2011 an increase of 48%.

The remaining management and Professional Services revenue includes professional management services in the gaming industry, licensed architectural services, food, beverage, and retail from Boot Hill Casino, and monitoring services for SCADA systems. Gaming related revenue including food, beverage, and retail increased 13% to \$3.5 million in fiscal 2012 compared to \$3.1 million in fiscal 2011. Professional Services revenue including architectural, engineering and monitoring services increased 2.4% to \$4.8 million in fiscal 2012, compared to \$4.7 million in fiscal 2011.

- Costs increased 7% in fiscal 2012 to \$20.3 million compared to \$19 million in fiscal 2011. Costs were 55% of segment total revenue in fiscal 2012, compared to 69% of segment total revenue in fiscal 2011.
- Expenses increased 54% in fiscal 2012 to \$14 million compared to \$9.1 million in fiscal 2011. Expenses were 38% of segment total revenue in fiscal 2012, compared to 33% of segment total revenue in fiscal 2011.

Aerospace Products

- Revenue decreased 9% from \$17.2 million in fiscal 2012 compared to \$18.9 million in fiscal 2011. This decrease is attributable to reduced Aerospace revenue of \$1.7 million. We anticipate future domestic military spending reductions and continued slow growth of the United States economy. In an effort to offset decreased domestic military spending, we have invested in the development of several STCs. These STCs are state of the art avionics and we are aggressively marketing both domestically and internationally.
- Costs decreased 2% to \$11.5 million in fiscal 2012 from \$11.8 million in fiscal 2011. Costs were 67% of segment total revenue in fiscal 2012, compared to 62% of segment total revenue in fiscal 2011.
- Expenses decreased 14% in fiscal 2012 at \$3.1 million compared to \$3.6 million in fiscal 2011. Expenses were 18% of segment total revenue in fiscal 2012, compared to 19% of segment total revenue in fiscal 2011.

Liquidity and Capital Resources (in thousands)

At April 30, 2013, the Company was utilizing two lines of credit totaling \$3.5 million. The unused line at April 30, 2013 was \$2.1 million. During the current year these funds were primarily used for the purchase of inventory and aircraft modification STC development for the modifications and avionics operations.

We believe the line of credit will be extended when it is due and do not anticipate the full repayment of this note in fiscal 2014. Our \$1 million line of credit has been extended to August 2013. Our \$2.5 million line of credit matures April 2015. The lines of credit are collateralized by the first and second positions on all assets of the Company.

At April 30, 2013, there were several notes collateralized by aircraft security agreements totaling \$1,957. These notes were used for the purchase and modifications of these collateralized aircraft and Kings Avionics, Inc.

There are three notes at a bank totaling \$1,691 for real estate located in Olathe, Kansas and Tempe, Arizona. The due date for these notes is March 2019.

One note totaling \$333 remain for real estate purchased in November 2007 and June 2009 in Dodge City, Kansas.

One note with a balance of \$202 is collateralized by the first and second position lien on all assets of the Company. This was used as capital for our daily business operations in 2006. There are several other notes collateralized by automobiles and equipment totaling an additional \$137.

BHCMC entered into an obligation with Konami Gaming Inc. effective August 1, 2012 in the amount of \$1,733. The purchase of the gaming system was installed at Boot Hill Casino in mid-August and has a current balance of \$1,169.

BHCMC arranged to acquire for ownership by the Kansas Lottery additional gaming machines. The balance of this financed payable is \$958.

In January 2012 we entered into an obligation with BHCI for a total of \$7,423. The remaining balance on the obligation is \$5,949.

On August 24, 2012 BHCMC and BHCI entered into a second lease of \$2,500 for tenant improvements related to expansion of Boot Hill Casino commencing on November 1, 2012. BHCMC remaining obligation is \$2.3 million.

We are not in default of any of our notes as of July 5, 2013.

We believe that our current banks will provide the necessary capital for our business operations. However, we continue to maintain contact with other banks that have an interest in funding our working capital needs to continue our growth in operations in 2013 and beyond.

The terms of the agreement between the Kansas Lottery and BNSC/BHCMC require the completion of an addition to the Boot Hill Casino. The Phase II development of an adjacent hotel and community owned special events center was funded by a third party, is completed, and open to the public. The Phase II expansion of Boot Hill Casino began in early 2012 and was completed in January 2013. Phase II expansion of the unfinished gaming floor space built during Phase I construction and tenant improvements was funded by tenant improvement leases, gaming machine leases, and casino earnings, with minimum exposure to Butler National Corporation. The Phase II expansion included the interior finish of 15,000 square feet of casino shell and 216 additional gaming machines. Part of the expansion included a breezeway connecting the Boot Hill Casino and the Dodge City special events center (United Wireless Arena). In January 2013 the snack bar was reopened with additional seating and space as the "Cowboy Cafe." Boot Hill Casino now has approximately 800 gaming machines on the floor.

Analysis and Discussion of Cash Flow

During fiscal 2013 our cash position decreased by \$2,283. We had net income of \$809. Cash flows from operating activities provided \$4,192. Non-cash activities consisting of depreciation and amortization contributed \$3,528 and stock options issued to employees and directors contributed \$110 and 401K stock issues contributed \$281. Stock issued for services contributed \$90. The following items decreased our cash position. Customer deposits and various receivables decreased by \$1,325 while inventories increased our cash position by \$207. Prepaid expenses and other current assets increased our cash by \$664, while an increase in fiscal 2013 of accounts payable and accrued expenses decreased our cash by an additional \$36.

Cash used in investing activities was \$8,159. We invested \$435 to purchase used modification equipment and aircraft, \$442 towards STCs, and \$7,170 to fund the Phase II development project at Boot Hill Casino. Approximately \$102 was used in the repair of Hangar facilities at New Century airport, and \$10 on property in Dodge City, Kansas.

Cash provided by financing activities was \$1,684. We reduced our debt by \$3,509 and our line of credit by \$915. We borrowed \$365 to purchase a used aircraft and \$4,233 to fund the Phase II development project and casino software at Boot Hill Casino.

Critical Accounting Policies and Estimates:

We believe that there are several accounting policies that are critical to understanding our historical and future performance, as these policies affect the reported amount of revenue and other significant areas involving management judgments and estimates. These significant accounting policies relate to revenue recognition, the use of estimates, long-lived assets, and Supplemental Type Certificates. These policies and our procedures related to these policies are described in detail below and under specific areas within this "Management Discussion and Analysis of Financial Condition and Results of Operations." In addition, Note 1 to the consolidated financial statements expands upon discussion of our accounting policies.

Revenue Recognition: Generally, we perform aircraft modifications under fixed-price contracts. Revenue from fixed-price contracts are recognized on the percentage-of-completion method, measured by the direct labor and material costs incurred compared to total estimated direct labor costs. Each quarter our management reviews the progress and performance of our significant contracts. Based on this analysis, any adjustment to sales, cost of sales and/or profit is recognized as necessary in the period they are earned. Changes in estimates of contract sales, cost of sales and profits are recognized using a cumulative catch-up, which is recognized in the current period of the cumulative effect of the change on current or prior periods. Revenue for off-the-shelf items and aircraft sales is recognized on the date of sale.

Revenue from Avionics products are recognized when shipped. Payment for these Avionics products is due within 30 days of the invoice date after shipment. Revenue for SCADA services, Gaming Management, and other Corporate/Professional Services are recognized as the service is rendered and invoiced. Payments for these service invoices are usually received within 30 days.

In regard to warranties and returns, our products are special order and are not suitable for return. Our products are unique upon installation and tested prior to their release to the customer and acceptance by the customer. In the rare event of a warranty claim, the claim is processed through the normal course of business and may include additional charges to the customer. In our opinion any future warranty work would not be material to the financial statements.

Gaming revenue is the gross gaming win as reported by the Kansas Lottery casino reporting systems, less the mandated payments by and for the State of Kansas. Electronic games-slots and table games revenue is the aggregate of gaming wins and losses. Liabilities are recognized for chips and "ticket-in, ticket-out" coupons in the customers' possession, and for accruals related to anticipated payout of progressive jackpots. Progressive gaming machines, which contain base jackpots that increase at a progressive rate based on the number of coins played, are deducted from revenue as the amount of jackpots increase. Food, beverage, and other revenue is recorded when the service is received and paid for.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Future events and their effects cannot be determined with certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates, and any such differences may be material to our financial statements.

Long-lived Assets: The Company accounts for its long-lived assets in accordance with ASC Topic 360-10, formerly SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets." ASC Topic 360-10 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value or disposable value.

Supplemental Type Certificates: Supplemental Type Certificates (STCs) are authorizations granted by the Federal Aviation Administration (FAA) for specific modification of a certain aircraft. The STC authorizes us to perform modifications, installations, and assemblies on applicable customer-owned aircraft. Costs incurred to obtain STCs are capitalized and subsequently amortized against revenue being generated from aircraft modifications associated with the STC. The costs are expensed as services are rendered on each aircraft through costs of sales using the units of production method. The legal life of an STC is indefinite. We believe we have enough future sales to fully amortize our STC development costs.

Changing Prices and Inflation

We have experienced upward pressure from inflation in fiscal year 2013. From fiscal year 2012 to fiscal year 2013 a majority of the increases we experienced were in material costs. This additional cost may not be transferable to our customers resulting in lower income in the future. We anticipate fuel costs and possibly interest rates to rise in fiscal 2014 and 2015.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The Financial Statements of the Registrant are set forth on pages 55 through 71 of this report.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

We have had no changes in or disagreements with the accountants.

Item 9A. CONTROLS AND PROCEDURES

We maintain a set of disclosure controls and procedures designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms. Our principal executive and financial officers have evaluated our disclosure controls and procedures as of the end of the period covered by this report on Form 10-K and have determined that such disclosure controls and procedures are effective, based on criteria in Internal Control-Integrated Framework, issued by COSO.

Evaluation of disclosure controls and procedures: Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this Form 10-K, our Chief Executive Officer and our Chief Financial Officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of April 30, 2013. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of April 30, 2013.

Internal Control Over Financial Reporting

Management Report on Internal Control Over Financial Reporting: Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal controls over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based on this evaluation, management has concluded that our internal control over financial reporting was effective as of April 30, 2013.

Our internal control over financial reporting includes policies and procedures that (1) pertain to maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of Company assets that could have a material effect on the financial statements.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management’s report is not subject to attestation by the Company registered public accounting firm because Section 989G(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act exempts us, a company with a public float of less than \$75 million from the requirement that our registered public accounting firm attest to our financial controls.

Limitations on Controls

Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Changes in Internal Control Over Financial Reporting: In our opinion there were no material changes in the Company internal controls over financial reporting during the three months ended April 30, 2013 that have materially affected, or are reasonably likely to materially affect, its internal controls over financial reporting.

Item 9B. Other Information

We believe all material information is reported on Form 8-K reports.

PART III

Qualifications and Skills of Directors: The Company believes that its Board as a whole should encompass a range of talent, skill, diversity, and expertise enabling it to provide sound guidance with respect to the Company's operations and interests. In addition to considering a candidate's background and accomplishments, candidates are reviewed in the context of the current composition of the Board and the evolving needs of our businesses.

The Board of Directors identifies candidates for election to the Board of Directors; reviews their skills, characteristics and experience. The Board of Directors seeks directors with strong reputations and experience in areas relevant to the strategy and operations of the Company's businesses, particularly industries and growth segments that the Company serves, such as avionics, aircraft modifications and gaming. Each of the Company's current Directors has experience in core management skills, such as strategic and financial planning, public company financial reporting, corporate governance, risk management, and leadership development.

The Board of Directors also believes that each of the current Directors has other key attributes that are important to an effective Board: integrity and demonstrated high ethical standards, sound judgment, analytical skills, the ability to engage management and each other in a constructive and collaborative fashion, diversity of origin, background, experience, and thought, and the commitment to devote significant time and energy to service on the Board and its Committees.

Diversity as a Factor in Selection of Board Candidates: The Board does not have a formal policy with respect to diversity. However, the Board believes that it is essential that the Board members represent diverse viewpoints, with a broad array of experiences, professions, skills and backgrounds that, when considered as a group, provide a sufficient mix of perspectives to allow the Board to best fulfill its responsibilities to the long-term interests of the Company's stockholders.

Board's Role in Risk Oversight and Board Leadership Structure: The Board has determined that the positions of Chairman of the Board and Chief Executive Officer should be held by different persons. Under our corporate governance principles, the Chairman of the Board is responsible for coordinating the Board's activities, including scheduling of meetings of the full Board, scheduling executive sessions of the non-employee directors and setting relevant items on the agenda (in consultation with the Chief Executive Officer as necessary or appropriate). The Board believes this leadership structure enhances the Board's oversight of Company management, the ability of the Board to carry out its roles and responsibilities on behalf of our stockholders, and our overall corporate governance.

The Board as a whole has responsibility for risk oversight, with reviews of certain areas being conducted by the relevant Board committees. These committees then provide reports to the full Board. The oversight responsibility of the Board and its committees is enabled by management reporting processes that are designed to provide visibility to the Board about the identification, assessment, and management of critical risks. These areas of focus include strategic, operational, financial and reporting, succession and compensation, compliance, and other risks. The Board and its committees oversee risks associated with their respective areas of responsibility, as summarized above.

During the past ten years no director or officer has been convicted in a criminal proceeding or is a named subject of a pending criminal proceeding, exclusive of traffic violations.

No petitions under the Federal bankruptcy laws have been filed by or against any business or property of any director or officer of the Company nor has any bankruptcy petition been filed against a partnership or business association where these persons were general partners or executive officers.

No director or officer has been permanently or temporarily enjoined, barred, suspended or otherwise limited from involvement in any type of business, securities or banking activities.

No director or officer been convicted of violating a federal or state securities or commodities law.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely upon a review of Forms 3 and 4 and amendments thereto furnished to the Company pursuant to Rule 16(a)-3(e) during the most recent fiscal year and Form 5 and amendments thereto furnished to the Company with respect to the most recent fiscal year, the Company believes that no person who at any time during the fiscal year was a director, officer, beneficial owner of more than 10% of any class of equity securities registered pursuant to Section 12 of the Exchange Act failed to file on a timely basis reports required by Section 16(a) of the Exchange Act during the most recent fiscal year or prior fiscal years.

Code of Ethics

The Company has adopted a code of ethics for our executive and senior financial officers, violations of which are required to be reported to the audit committee. The Company will furnish a copy without charge upon written request to the Company at 19920 West 161st Street, Olathe, Kansas 66062, Attn: Secretary or a copy is available on our website at www.butlernational.com/codeofethics.pdf.

Audit Committee and Audit Committee Expert of the Company

AUDIT COMMITTEE REPORT

The current members of the Audit Committee are Mr. David B. Hayden, Mr. Bradley K. Hoffman, and Mr. Tad McMahon. Mr. Hoffman is an independent member under the Nasdaq listing standards. The Audit Committee met five times during fiscal year 2013, excluding actions by unanimous written consent.

Each member of the Audit Committee has experience or education in business or financial matters sufficient to provide him or her with a working familiarity with basic finance and accounting matters of the company.

The Audit committee is primarily concerned with the effectiveness of the Company accounting policies and practices, financial reporting and internal controls. The Audit Committee is authorized (i) to make recommendations to the Board of Directors regarding the engagement of the Company independent auditors, (ii) to review the plan, scope and results of the annual audit, the independent auditors' letter of comments and management response thereto, (iii) to approve all audit and non-audit services, (iv) to review the Company policies and procedures with respect to internal accounting and financial controls and (v) to review any changes in accounting policy.

Audit Committee Financial Expert

The Company's Board of Directors does not have an "audit committee financial expert," within the meaning of such phrase under applicable regulations of the Securities and Exchange Commission, serving on its audit committee. The Board of Directors believes that all members of its audit committee are financially literate and experienced in business matters, and that one or more members of the audit committee are capable of (i) understanding generally accepted accounting principles ("GAAP") and financial statements, (ii) assessing the general application of GAAP principles in connection with our accounting for estimates, accruals and reserves, (iii) analyzing and evaluating our financial statements, (iv) understanding our internal controls and procedures for financial reporting; and (v) understanding audit committee functions, all of which are attributes of an audit committee financial expert. However, the Board of Directors believes that there is not any audit committee member who has obtained these attributes through the experience specified in the SEC's definition of "audit committee financial expert." Further, like many small companies, it is difficult for the Company to attract and retain Board members who qualify as "audit committee financial experts," and competition for these individuals is significant. The Board believes that its current audit committee is able to fulfill its role under SEC regulations despite not having a designated "audit committee financial expert."

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors and oversees the entire audit function including the selection of independent registered public accounting firm. Management has the primary responsibility for the consolidated financial statements and the financial reporting process including internal control over financial reporting and the Company's legal and regulatory compliance. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with management the audited consolidated financial statements for the year ended April 30, 2013 including a discussion of the acceptability and quality of the accounting principles, the reasonableness of significant accounting judgments and critical accounting policies and estimates, the clarity of disclosures in the consolidated financial statements, and management's assessment and report on internal control over financial reporting. The Audit Committee also discussed with the Chief Executive Officer and Chief Financial Officer their respective certifications with respect to the Company's Annual Report on Form 10-K for the year ended April 30, 2013.

The Audit Committee reviewed with the independent registered public accounting firm, who are responsible for expressing an opinion on the conformity of the audited consolidated financial statements with U.S. generally accepted accounting principles, its judgments as to the acceptability and quality of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB) including those matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit

Committees. In addition, the Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence and has discussed those disclosures and other matters relating to independence with the auditors.

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for its audit. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of its audits of the Company.

Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent registered public accounting firm. In reliance on the reviews and discussions with management and with the independent registered public accounting firm referred to above and the receipt of an unqualified opinion from L. L. Bradford and Company, LLC dated July 26, 2013 regarding the audited consolidated financial statements of the Company for the year ended April 30, 2013, the Audit Committee recommended to the Board of Directors (and the Board approved) that the audited consolidated financial statements be included in the Annual Report on Form 10-K for the year ended April 30, 2013 for filing with the Securities and Exchange Commission.

The Audit Committee report is submitted by:

David B. Hayden, Bradley K. Hoffman and Tad McMahon

Item 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS:

Our compensation programs are designed to support our business goals and promote both short-term and long-term growth. This section of the Annual Report on Form 10-K explains how our compensation programs are designed and operate in practice with respect to our listed officers. Our listed officers are the CEO, CFO, Chairman of the Board and two Vice Presidents. There are only five executive officers of Butler National Corporation. The "Executive Compensation" section presents compensation earned by the listed officers for fiscal years ending April 30, 2013, 2012 and 2011.

The Compensation Committee of the Board of Directors determines the compensation for Butler National executive officers. Our executive officers have the broadest job responsibilities and policy-making authority in the company. The Compensation Committee reviews and determines all components of executive officer compensation, including making individual compensation decisions and reviewing and revising the executive officer compensation plans, programs, and guidelines as appropriate. The Compensation Committee also consults with management regarding non-executive employee compensation programs.

Our Compensation Philosophy

The core element of our overall compensation philosophy is the alignment of pay and performance. Total compensation varies with individual performance and Butler National's performance in achieving financial and non-financial objectives. Our equity plans are designed to ensure that executive compensation is aligned with the long-term interests of our stockholders. The Compensation Committee and our management believe that compensation should help to recruit, retain, and motivate the employees that the company will depend on for current and future success. The Compensation Committee and our management also believe that the proportion of "at risk" compensation (variable cash compensation and equity) should rise as an employee's level of responsibility increases. This philosophy is reflected in the following key design priorities that govern compensation decisions:

- pay for performance
- employee recruitment, retention, and motivation

- cost management
- egalitarian treatment of employees
- alignment with stockholders' interests
- continued focus on corporate governance

Each element of compensation reflects one or more of these design priorities. In most cases, our employees, including executive officers, are employed at will, without employment agreements, severance payment arrangements (except as required by local law), or payment arrangements that would be triggered by a “change in control” of Butler National. Retirement plan programs are broad-based; Butler National does not provide special retirement plans or benefits solely for executive officers.

Total compensation for the majority of our employees including executive officers, includes two or more of the following components:

- base salary
- annual and semiannual incentive cash payments
- equity grants (no grants since fiscal 2003)
- employee stock purchase plan
- retirement benefits
- health and welfare benefits

The Compensation Committee and management continue to believe that a similar method of compensating all employees with cash, equity and retirement benefits supports a culture of fairness, collaboration, and egalitarianism.

Determining Executive Compensation

The Compensation Committee reviews and determines the compensation for Butler National executive officers. The Compensation Committee process for determining compensation includes a review of Butler National executive compensation and practices, and an analysis, for each Butler National executive officer, of all elements of compensation. In conducting an annual performance review and determining appropriate compensation levels, the Compensation Committee meets and deliberates outside the presence of the executive officers. In determining base salary the Compensation Committee reviews company and individual performance information.

In designing the compensation programs and determining compensation levels for the Butler National executive officers, including the CEO, the Compensation Committee was assisted by an independent compensation consultant and independent legal counsel (other than Butler National’s in-house counsel and Butler National’s general external legal counsel). The Compensation Committee engaged CBIZ Human Capital Services (“CBIZ”) to serve as its independent advisor and compensation consultant. The Chairman of the Compensation Committee worked directly with CBIZ to determine the scope of the work needed to assist the Compensation Committee in its review and decision-making processes. The engagement included confirmation of compensation philosophy, provision of benchmark comparative data for executive officers with respect to base salary, total cash compensation (including annual cash incentive payments), long-term equity incentives, review of current employment arrangements, benefits, perquisites and incentive plan design of short term and long term incentives. CBIZ provides no other consultation or services to Butler National or management.

In making compensation decisions, the Compensation Committee, with the assistance of CBIZ, compared each element of total cash compensation per executive officer against a peer group of 11 public companies. The peer group was composed of companies similar to Butler National with respect to industry, location, and revenue size. The Compensation Committee also compared, with the assistance of CBIZ, the duties performed by each executive vis-a-vie executives a peer group companies.

Base Salary

The Compensation Committee establishes executive officers' base salaries at levels that it believes are reasonable for comparable positions. When the Compensation Committee determines the executive officers' base salaries during the first quarter of the year, the Compensation Committee takes into account each officer's role and level of responsibility at the company. In general, executive officers with the highest level and amount of responsibility have received the highest base salaries. In February 2013, the Compensation Committee considered the current economic conditions and recommended that no changes be made at this time.

PAY COMPONENT	BRIEF DESCRIPTION
Base salary	Described in detail in separate paragraph above titled Base Salary.
Annual and semiannual incentive cash payments	Paid as discretionary cash bonuses to individual employees for outstanding performance of a task.
Equity grants/option awards	Option Awards are granted by the Compensation Committee to align management objective toward improved earnings and retention of the management team.
Employee stock purchase plan	Any employee may purchase the Company stock at the fair market value at the date of purchase without broker or issue fees. The stock is restricted and not considered a stock reward. We have the 1981 Employee Stock Purchase plan. No shares have been purchased under this plan since 1988.
Retirement benefits	We pay the required federal and state retirement contributions, the required unemployment contributions and match the employee's contribution to their account in the Butler National Corporation 401(k) plan according to the parameters set forth in the plan.
Health and welfare benefits	Employees electing to participate in the various insurance plans offered by the Company receive a payment for a share of the health, dental, vision and life insurance costs for the employee.

The unexercised options at April 30, 2013 listed in the table above have an exercise price of \$0.49 and will expire on December 31, 2020. The options were granted under and are expressly subject to all the terms and provisions of the Plans, and the terms of such Plans are incorporated herein by reference. The terms are included but not limited to the following restrictions:

(a) In no event may any shares be purchased hereunder until satisfaction, either simultaneously or separately, of both (1) the date being December 31, 2011 or later and (2) the close of the Company's common stock at a market price at or above \$0.92 on any date between December 31, 2010 and December 31, 2015.

(b) In no event may any shares be purchased hereunder until satisfaction, either simultaneously or separately, of both (1) the date being December 31, 2012 or later and (2) the close of the Company's common stock at a market price at or above \$1.41 on any date between December 31, 2010 and December 31, 2015.

(c) In no event may any shares be purchased hereunder until satisfaction, either simultaneously or separately, of both (1) the date being December 31, 2013 or later and (2) the close of the Company's common stock at a market price at or above \$1.90 on any date between December 31, 2010 and December 31, 2015.

Material Adverse Effect of Compensation Policies and Procedures

The Compensation Committee regularly reviews the Company's compensation policies and practices, including the risks created by the Company's compensation plans. In addition, the Company also conducted a review of its compensation plans and related risks to the Company. The Company reviewed its analysis with the Compensation Committee, and the Compensation Committee concluded that the compensation plans reflected the appropriate compensation goals and philosophies. Based on this review and analysis, the Company has concluded that any risks arising from its employee compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Performance Measures and Decision-Making Process for Fiscal Year 2013

The Compensation Committee set base salaries for executive officers for fiscal 2013 in April 2012, with payment beginning in April 2012.

- The performance measures used by the Committee in determining executive compensation for fiscal year 2013 were:
- the absolute one-year and multi-year company performance as measured by market share, revenue growth, profit from operations and total shareholder return;
- one-year and multi-year performance on the same measures as compared with competitors in the comparator group; and
- Company progress toward its strategic goals.

To make its decisions on executive compensation, the Compensation Committee reviewed in detail each of the performance measures above and reviewed compensation market data. The Compensation Committee also reviewed the total compensation and benefits of the executive officers and considered the impact that their retirement, or termination under various other scenarios, would have on their compensation and benefits.

The CEO provided the entire Board of Directors with an assessment of his own performance with respect to the performance measures listed above, which the Board considered in its assessment of his performance for fiscal year 2013. The CEO reviewed the performance of the other executive officers (except the Chairman) with the Compensation Committee and made recommendations regarding the components of their compensation.

Before making its compensation decisions, the Compensation Committee discussed levels of compensation for the Chairman, the CEO and the other executive officers with the full Board of Directors in an executive session.

Determination of CEO Compensation

In fiscal year 2012, Butler National Corporation reached projected levels of revenue, profit from operations, operating margin and operating cash flow.

With regard to progress toward strategic goals, BNC improved its products and technology positions and strengthened its relationships with customers.

Taking into account Company performance, both absolute and relative to competition and the executive officers contribution to that performance, the Compensation Committee set its targeted compensation levels so as to be commensurate with that relative performance. The Compensation Committee made the following determinations for fiscal year 2013 with respect to each component of compensation for the CEO and his existing contract and the other executive officers:

Base Salary - In keeping with its strategy, the Compensation Committee base salary decisions for fiscal year 2013 were generally intended to provide salaries somewhat lower than the median level of salaries for similarly situated executives of the comparator companies.

Long-Term Compensation - The Compensation Committee granted no equity compensation.

Compensation of the Chairman

Because Mr. Wagoner was among the most highly compensated executive officers in the Company, SEC rules require disclosure of his compensation. In making the determinations, the Compensation Committee considered his role as Chairman, his contribution to the Company performance and strategic direction, and the compensation of employee-chairmen of comparator companies.

Report of the Compensation Committee

The Compensation Committee, which is composed of the three members of the Board of Directors, assists the Board in fulfilling its responsibilities with regard to compensation matters, and is responsible under its charter for determining the compensation of the Company's executive officers. The Compensation Committee has reviewed and discussed the "Compensation Discussion and Analysis" section of this Annual Report on Form 10-K with management, including our CEO, Clark D. Stewart and our CFO, Angela D. Shinabargar. Based on this review and discussion, the Compensation Committee recommended to the Board of Directors that the "Compensation Discussion and Analysis" section be included in the Company's Annual Report on Form 10-K.

- (1) All Other Compensation includes the amounts in the tables above.
- (2) All benefits are provided for in the tables, summaries, and footnotes above. We did not participate in any of the following transactions and such items are therefore not reported in table format: Equity Award Table, Pension Benefit Table, Nonqualified Deferred Compensation Table, and Director Compensation Table.
- (3) Includes catch-up contribution made by the employee and matched by the Company.

- (4) The aggregate grant date fair value was computed in accordance with FASB ASC Topic 718 for each of the option tranches for each of the three years of the plan. The value is calculated by using the fair market value at the date of grant times the probability the receiving individual will be an employee of Butler National at the time the option may be exercised, times the probability that the price of the BUKS stock will reach the trigger price within the option period, times the Black Scholes value factor for the time to the trigger date for each year.

The unexercised options at April 30, 2013 listed in the table above have an exercise price of \$0.49 and will expire on December 31, 2020. The options were granted under and are expressly subject to all the terms and provisions of the Plans, and the terms of such Plans are incorporated herein by reference. The terms are included but not limited to the following restrictions:

- (a) In no event may any shares be purchased hereunder until satisfaction, either simultaneously or separately, of both (1) the date being December 31, 2011 or later and (2) the close of the Company's common stock at a market price at or above \$0.92 on any date between December 31, 2010 and December 31, 2015.
- (b) In no event may any shares be purchased hereunder until satisfaction, either simultaneously or separately, of both (1) the date being December 31, 2012 or later and (2) the close of the Company's common stock at a market price at or above \$1.41 on any date between December 31, 2010 and December 31, 2015.
- (c) In no event may any shares be purchased hereunder until satisfaction, either simultaneously or separately, of both (1) the date being December 31, 2013 or later and (2) the close of the Company's common stock at a market price at or above \$1.90 on any date between December 31, 2010 and December 31, 2015.

COMPENSATION OF DIRECTORS

Each non-officer director is entitled to a director's fee for meetings of the Board of Directors which he attends. Officer-directors are not entitled to receive fees for attendance at meetings.

Fees of \$20 were paid to Michael Tamburelli, David Hayden, and Bradley Hoffman in fiscal 2013. Fees of \$20 were paid to each of the directors in fiscal 2012.

EMPLOYMENT CONTRACTS, TERMINATION OF EMPLOYMENT AND CHANGE-IN-CONTROL ARRANGEMENTS.

On April 30, 2001, the Company extended the Employment Agreement through August 31, 2006 with Clark D. Stewart under the terms of which Mr. Stewart was employed as the President and Chief Executive Officer of the Company. On February 24, 2009 the Company extended the Employment Agreement with Mr. Stewart with the terms as currently provided including annual increases of 5% through December 31, 2022. In the event Mr. Stewart is terminated from employment with the Company other than "for cause," Mr. Stewart shall receive as severance pay an amount equal to the unpaid salary for the remainder of the term of the Employment Agreement. Mr. Stewart is also granted an automobile allowance of \$600 per month which is reported by us as Salary Expense and to Mr. Stewart as Wages. Under the terms of the Employment Agreement with Mr. Stewart, the Company is obligated to pay company related expenses and salary. Included in accrued liabilities are \$37,994 and \$26,638 as of April 30, 2013, and 2012 respectively for amounts owed to our CEO for accrued compensation.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee of the Board of Directors is comprised of Mr. Hayden, Board member, Mr. Tamburelli, Board member and Mr. Hoffman, Board member. The company does not generally employ the use of any compensation consultants in determining or recommending the amount or form of executive and director compensation.

In the normal course of business we purchased modification services and avionics of \$0, \$0, and \$1,144 from a company partially owned by David Hayden, a director for Butler National Corporation during fiscal 2013, 2012, and 2011 respectively.

In September 2010 we acquired Kings Avionics, Inc. in support of our "Classic" commercial and military product lines. As part of the acquisition Mr. Hayden received \$90 in fiscal 2011 and \$135 in fiscal 2012 and 2013.

In the normal course of business we purchased business system components of \$47, \$112, and \$159 from ISG, the employer of Bradley Hoffman, a director of Butler National Corporation during fiscal 2013, 2012 and 2011 respectively.

Included in accrued liabilities are \$33 and \$38 as of April 30, 2013, and 2012 respectively for amounts owed to our CEO for accrued compensation.

In fiscal 2013, there were three related-person transactions under the relevant standards: Butler National employed the brother (Wayne Stewart), son (Craig Stewart) and son-in-law (Jeff Shinkle) of Clark D. Stewart, an executive officer, as an engineer, a sales representative and public relations person, and an architect. Compensation for these related-persons was calculated in the same manner as the Summary Compensation table resulting in compensation of \$209, \$264 and \$173, respectively, for fiscal 2013, \$199, \$270 and \$165, respectively, for fiscal 2012, and \$187, \$273 and \$155 respectively, for fiscal 2011.

The policies and procedures for payment of goods and services for related transactions follow our normal course of business standards and require the necessary review and approval process as outlined in our Policies and Procedures manual and as set forth by our Compensation Committee.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth, with respect to the Company common stock (the only class of voting securities), the only persons known to be beneficial owners of more than five percent (5%) of any class of the Company voting securities as of July 5, 2013.

2013 Report of Independent Registered Public Accounting Firm

Stockholders and Directors
Butler National Corporation
Olathe, Kansas

We have audited the accompanying consolidated balance sheets of Butler National Corporation as of April 30, 2013 and the related consolidated statements of operations, stockholders' equity, and cash flows for the year ended April 30, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Butler National Corporation as of April 30, 2013 and the consolidated results of its operations, stockholders' equity, and cash flows for year ended April 30, 2013 in conformity accounting principles generally accepted in the United States of America.

Report of Independent Registered Public Accounting Firm

Stockholders and Directors
Butler National Corporation
Olathe, Kansas

We have audited the accompanying consolidated balance sheets of Butler National Corporation as of April 30, 2012 and 2011 and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended April 30, 2012. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Butler National Corporation as of April 30, 2012 and 2011 and the consolidated results of its operations, stockholders' equity, and cash flows for each of the three years in the period ended April 30, 2012 in conformity with U.S. generally accepted accounting principles.

BUTLER NATIONAL CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(in thousands, except per share data)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES:

The accompanying consolidated financial statements include the accounts of Butler National Corporation (BNC) and its wholly-owned active subsidiaries, Avcon Industries, Inc., AVT Corporation, BCS Design, Inc., Butler National Services, Inc., Butler National Service Corporation, Butler National Corporation-Tempe, Kings Avionics, Inc., Butler National, Inc., Butler Temporary Services, Inc., Kansas International Corporation, Kansas International DDC, LLC, and a majority owned subsidiary, BHCMC, LLC (collectively, The Company). All significant intercompany transactions have been eliminated in consolidation.

Avcon Industries, Inc. modifies business category aircraft at its Newton, Kansas facility. Modifications can include passenger-to-freighter configuration, addition of aerial photography capability, and stability enhancing modifications. Kings Avionics sells, installs and repairs avionics equipment (airplane radio equipment and flight control systems). Butler National Inc. acquires airplanes, principally Learjets, to refurbish and sell. Butler National Corporation-Tempe is primarily engaged in the manufacture of airborne switching units used in Boeing McDonnell Douglas aircraft, electronic upgrades for classic weapon control systems used by the military and transient suppression devices for Boeing Classic aircraft. Butler National Services is principally engaged in monitoring remote water and wastewater pumping stations through electronic surveillance. Butler National Service Corporation is a management consulting and administrative services firm providing business planning and financial coordination to Indian tribes interested in owning and operating casinos under the terms of the Indian Gaming Regulatory Act of 1988. BHCMC, LLC is majority-owned and provides management services for the Boot Hill Casino under a management agreement with the State of Kansas. BCS Design provides professional architectural services.

- a) Accounts receivable: Accounts receivable are carried on a gross basis, with no discounting, less the allowance for doubtful accounts. Management estimates the allowance for doubtful accounts based on existing economic conditions, the financial conditions of the customers, and the amount and the age of past due accounts. Receivables are considered past due if full payment is not received by the contractual due date. Past due accounts are generally written off against the allowance for doubtful accounts only after all collection attempts have been exhausted. Allowance for doubtful accounts are calculated on the historical write-off of doubtful accounts of the individual subsidiaries. Invoices are generally considered a doubtful account if no payment has been made in the past 90 days. We review these policies on a quarterly basis, and based on these reviews, we believe we maintain adequate reserves. At April 30, 2013 and 2012, the allowance for doubtful accounts was \$51 and \$58 respectively.
- b) Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Future events and their effects cannot be determined with certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates, and any such differences may be material to our financial statements.
- c) Inventories: Inventories are priced at the lower of cost, determined on a first-in, first-out basis, or market. Inventories include material, labor and factory overhead required in the production of our products.

Inventory obsolescence is examined on a regular basis. When determining our estimate of obsolescence we consider inventory that has been inactive for three years or longer and the probability of using that inventory in future production. The obsolete inventory generally consists of Falcon and Learjet parts and electrical components. At April 30, 2013 and 2012, the estimate of obsolete inventory was \$1,400 and \$1,093 respectively.

- d) **Property and Related Depreciation:** Machinery and equipment are recorded at cost and depreciated over their estimated useful lives. Depreciation is provided on a straight-line basis. The lives used for the significant items within each property classification range from 3 to 39 years.

Maintenance and repairs are charged to expense as incurred. The cost and accumulated depreciation of assets retired are removed from the accounts and any resulting gains or losses are reflected as income or expense.

- e) **Long-Lived Assets:** The Company accounts for its long-lived assets in accordance with ASC Topic 360-10, Formerly SFAS No. 144 “Accounting for the Impairment or Disposal of Long-Lived Assets.” ASC Topic 360-10 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset’s carrying value and fair value or disposable value.

- f) **Other Assets:** Our other asset account includes intangible assets of \$5,500 related to the Kansas Expanded Lottery Act Management Contract privilege fee, \$1,182 of gaming equipment we were required to pay for ownership by the State of Kansas Lottery, and JET autopilot intellectual property of \$1,417. BHCMC expects the \$5,500 privilege fee to have a value over the remaining life of the Management Contract with the State of Kansas which will end in December 2024. There is no assurance of the Management Contract renewal. The intangible gaming equipment asset is being amortized over a period of three years based on the estimated useful life of gaming equipment. The “JET” intellectual property is being amortized over a period of 15 years at a rate of 5% per year. Other assets net values are as follows:

(dollars in thousands)	<u>2013</u>	<u>2012</u>
Privilege fee.....	\$ 5,500	\$ 5,500
Less amortized costs	<u>564</u>	<u>141</u>

Intangible gaming equipment	\$ 1,182	\$ -

Intangible gaming equipment balance.....	<u>\$ 1,034</u>	<u>-</u>
JET autopilot intellectual property.....	\$ 1,417	\$ 1,417
Less amortized costs	<u>491</u>	<u>397</u>
JET autopilot balance	<u>\$ 926</u>	<u>\$ 1,020</u>

- g) **Supplemental Type Certificates:** Supplemental Type Certificates (STCs) are authorizations granted by the Federal Aviation Administration (FAA) for specific modification of a certain aircraft. The STC authorizes us to perform modifications, installations, and assemblies on applicable customer-owned aircraft. Costs incurred to obtain STCs are capitalized and subsequently amortized against revenues being generated from aircraft modifications associated with the STC. The costs are expensed as services are rendered on each aircraft through costs of sales using the units of production method. The legal life of an STC is indefinite. We believe we have enough future sales to fully amortize our STC development costs. Consultant costs, as shown below, include costs of engineering, legal and aircraft specialists. STC capitalized costs are as follows:

(dollars in thousands)	<u>2013</u>	<u>2012</u>
Direct labor	\$ 566	\$ 444
Direct materials.....	1,244	1,120
Consultant costs	1,922	1,922
Overhead	886	691
	<u>4,618</u>	<u>4,177</u>
Less-amortized costs	2,604	2,500
STC balance.....	<u>\$ 2,014</u>	<u>\$ 1,677</u>

- h) Revenue Recognition: Generally, we perform aircraft modifications under fixed-price contracts. Revenues from fixed-price contracts are recognized on the percentage-of-completion method, measured by the direct labor and material costs incurred compared to total estimated direct labor costs. Each quarter our management reviews the progress and performance of our significant contracts. Based on this analysis, any adjustment to sales, cost of sales and/or profit is recognized as necessary in the period they are earned. Changes in estimates of contract sales, cost of sales and profits are recognized using a cumulative catch-up, which is recognized in the current period of the cumulative effect of the change on current or prior periods. Revenue for off-the-shelf items and aircraft sales is recognized on the date of sale.

Casino gaming revenue is the gross gaming win as reported by the Kansas Lottery casino reporting systems less the mandated distributions by and for the State of Kansas.

Revenue from Avionics products are recognized when shipped. Payment for these Avionics products is due within 30 days of the invoice date after shipment. Revenue for SCADA services, Gaming Management, and other Corporate/Professional Services is recognized as the service is rendered and invoiced. Payments for these service invoices are usually received within 30 days.

We warrant to our customer that our products and services are in good working order at the time of delivery. We warrant that these products will continue to be serviceable for periods from 90 days to up to a maximum of 36 months. Our products are tested and accepted by the customer prior to their release. For the years ended April 30, 2013, 2012, 2011 we had no beginning warranty reserve, no additions to warranty reserves, and no reductions to the warranty reserve. In each of the three years ended April 30, 2013, 2012, 2011 our warranty expense was immaterial.

- i) Slot Machine Jackpots: If the Company is unable to avoid payment of the jackpot (i.e. the incremental amount on a progressive machine) due to legal requirements, the jackpot is accrued as the obligation becomes unavoidable. This liability is accrued over the time period in which the incremental progressive jackpot amount is generated with a related reduction in casino revenue. No liability is accrued with respect to the base jackpot.
- j) Advanced Payments and Billings in Excess of Costs Incurred: We receive advances, performance-based payments and progress payment from customers which may exceed costs incurred on certain contracts. We classify advance payments and billings in excess of costs incurred, other than those reflected as a reduction of contracts in process, as current liabilities.
- k) Earnings Per Share: Earnings per common share is based on the weighted average number of common shares outstanding during the year. Stock options have been considered in the dilutive earnings per share calculation.

The computation of the Company basic and diluted earnings per common share is as follows:

(in thousands, except per share data)	2013	2012	2011
Net income (loss) attributable to Butler National Corporation	\$ (148)	\$ 1,900	\$ 1,259
Weighted average common shares outstanding	59,014,594	56,596,214	56,108,812
Dilutive effect of non-qualified stock option plans	-	-	-
Weighted average common shares outstanding, assuming dilution	59,014,594	56,596,214	56,108,812
Potential common shares if all options were exercised and shares issued	66,281,237	64,848,201	63,856,326
Basic earnings per common share	\$.00	\$.03	\$.02
Diluted earnings per common share	\$.00	\$.03	\$.02

- l) **Stock-based Compensation:** The Company accounts for stock-based compensation under ASC Topic 505-50, formerly SFAS No. 123R, “*Share-Based Payment*” and SFAS No. 148, “*Accounting for Stock-Based Compensation - Transition and Disclosure - An amendment to SFAS No. 123.*” These standards define a fair value based method of accounting for stock-based compensation. In accordance with SFAS Nos. 123R and 148, the cost of stock-based compensation is measured at the grant date based on the value of the award and is recognized over the vesting period. The value of the stock-based award is determined using the Black-Scholes option-pricing model, whereby compensation cost is the excess of the fair value of the award as determined by the pricing model at the grant date or other measurement date over the amount that must be paid to acquire the stock. The resulting amount is charged to expense on the straight-line basis over the period in which the Company expects to receive the benefit, which is generally the vesting period.
- m) **Income Taxes:** Amounts provided for income tax expense are based on income reported for financial statement purposes and do not necessarily represent amounts currently payable under tax laws. Deferred taxes, which arise principally from temporary differences between the period in which certain income and expense items are recognized for financial reporting purposes and the period in which they affect taxable income, are included in the amounts provided for income taxes. Under this method, the computation of deferred tax assets and liabilities give recognition to enacted tax rates in effect in the year the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to amounts that we expect to realize.
- n) **Cash and Cash Equivalents:** Cash and cash equivalents consist primarily of cash and investments in a money market fund. We consider all highly liquid investments with an original maturity of three months or less to be cash equivalents. We maintain cash in bank deposit accounts that, at times, may exceed federally insured limits. At April 30, 2013 we had \$1,218 in bank deposits that exceeded the federally insured limits.
- o) **Concentration of Credit Risk:** We extend credit to customers based on an evaluation of their financial condition and collateral is not required. We perform ongoing credit evaluations of our customers and maintain an allowance for doubtful accounts.
- p) **Research and Development:** We invested in research and development activities. The amount invested in the year ended April 30, 2013 and 2012 was \$1,755 and \$1,652 respectively.
- q) **Recent Accounting Pronouncements:** We do not believe there are any recently issued accounting standards that have not yet been adopted that will have a material impact on the Company’s financial statements.
- r) **Reclassifications:** Certain reclassifications within the financial statement captions have been made to maintain consistency in presentation between years.

Financial and Other Covenants

The credit facility contains financial and other covenants, as amended in March 2013, requiring a tangible net worth of \$1 million and debt service ratio of 1.0. We are in compliance with our covenants at April 30, 2013.

3. INCOME TAXES:

Deferred taxes are determined based on the estimated future tax effects of differences between the financial statements and tax basis of assets and liabilities given the provision of the enacted tax laws. Significant components of the Company's deferred tax liabilities and assets as of April 30, 2013 and 2012 are as follows (in thousands):

	<u>April 30, 2013</u>	<u>April 30, 2012</u>
Deferred tax liabilities:		
Depreciation.....	\$ (550)	\$ (656)
Deferred tax assets:		
Accounts receivable allowance	18	20
Inventory and other allowances	1,734	1,693
Vacation accruals.....	101	110
Total gross deferred tax assets.....	<u>1,853</u>	<u>1,823</u>
Less valuation allowance	-	-
Net deferred tax assets.....	<u>\$ 1,303</u>	<u>\$ 1,167</u>

The reconciliation of the federal statutory income tax rate to the effective tax rate is as follows:

	<u>April 30, 2013</u>	<u>April 30, 2012</u>
Statutory federal income tax rate (benefit) expense, net of noncontrolling interest	(34.0)%	34.0%
State income tax net of federal benefits.....	0.0%	4.0%
Permanent tax.....	3.7%	6.8%
Other.....	(54.3)%	(15.1)%
	<u>(84.6)%</u>	<u>29.7%</u>
Income tax expense:		
Deferred income tax (benefit).....	\$ (136)	\$ 59
Current income tax (benefit).....	(680)	764
Total income tax expense (benefit).....	<u>\$ (816)</u>	<u>\$ 823</u>

Current income tax expense (benefit) of \$(680) and \$764 are comprised of \$(650) and \$594 in federal income tax and \$(30) and \$170 in state income tax for the years ended April 30, 2013 and 2012, respectively.

The Company has accrued (refundable) income taxes due to federal and state taxing authorities of approximately \$(1,395) and \$47 for the years ended April 30, 2013 and 2012, respectively.

The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on its financial condition, results of operations or cashflow. Therefore, no reserve for uncertain income tax position, interest or penalties, have been recorded.

4. STOCKHOLDERS' EQUITY:

Common Stock Transactions

During the year ended April 30, 2013, we issued 1,476,259 shares valued at \$281 as the match to the Company 401(k) plan.

During the year ended April 30, 2013, we issued 238,750 shares of Company common stock at a value of \$90 for marketing and consulting services.

During the year ended April 30, 2012, we issued 713,302 shares valued at \$278 as the match to the Company 401(k) plan.

During the year ended April 30, 2011, we issued 437,814 shares valued at \$214 as the match to the Company 401(k) plan.

During the year ended April 30, 2011, we issued 193,750 shares of Company common stock at a value of \$78 for marketing and consulting services.

5. STOCK OPTIONS AND INCENTIVE PLANS

The following represents the outstanding and exercisable number of shares, weighted average exercise price and weighted average remaining contractual life of options outstanding and exercisable.

We issued 7,262,064 stock options on December 31, 2010 expiring on December 31, 2015. The exercise price for the incentive stock options is \$0.49 (closing price as of December 31, 2010). The incentive stock options are allocated in three groups with two conditions for vesting. The first condition is stock price and the second condition is time:

Year 1: Target \$0.92

- 2,420,688 options that can be exercised after December 31, 2011 once the share price reaches \$0.92

Year 2: Target \$1.41

- 2,420,688 options that can be exercised after December 31, 2012 once the share price reaches \$1.41

Year 3: Target \$1.90

- 2,420,688 options that can be exercised after December 31, 2013 once the share price reaches \$1.90

We used the Black-Scholes model to value the options and used assumptions of ultimately how many option shares would vest based on our experience. The value of the option shares is \$684 and this will be expensed over the vesting term using the active employment to determine monthly expense. For the fiscal year ended April 30, 2013 we expensed \$110. The remaining amount will be expensed through fiscal 2014. The fair value of the option shares used the following weighted average assumptions: Strike Price \$1.36; Stock Price \$0.49; Volatility 125%; Term 3.1 years; Dividend yield 0% and Interest Rate 1.01%.

A summary of stock options and warrants is as follows:

	2013	2012	2011

6. COMMITMENTS:

Lease and Rent Commitments (in thousands)

We lease and rent space with initial terms of three (3) years, (5) years and ten (10) years. Total rental expense incurred for the years ended April 30, 2013, 2012, and 2011, was \$5,012, \$4,981 and \$4,896 respectively.

Minimum lease and rent agreement commitments under noncancellable operating leases and rental agreements for the next five (5) years are as follows:

<u>Year Ending April 30</u>	<u>Amount</u>
2014	\$ 5,018
2015	4,991
2016	4,969
2017	5,017
2018	4,978
	<u>\$ 24,973</u>

7. CONTINGENCIES:

In the ordinary course of business, the Company is at times subject to various legal proceedings and claims. Butler National Corporation does not believe any such matters that are currently pending will have a material effect on its results of operation or financial position.

8. RELATED-PARTY TRANSACTIONS:

In the normal course of business we purchased modification services and avionics of \$0, \$0, and \$1,144 from a company partially owned by David Hayden, a director for Butler National Corporation during fiscal 2013, 2012, and 2011 respectively.

In September 2010 we acquired Kings Avionics, Inc. in support of our "Classic" commercial and military product lines. As part of the acquisition Mr. Hayden received \$90 in fiscal 2011 and \$135 in fiscal 2012 and 2013.

In the normal course of business we purchased business system components of \$47, \$112, and \$159 from ISG, the employer of Bradley Hoffman, a director of Butler National Corporation during fiscal 2013, 2012 and 2011 respectively.

Included in accrued liabilities are \$33 and \$38 as of April 30, 2013, and 2012 respectively for amounts owed to our CEO for accrued compensation.

In fiscal 2013, there were three related-person transactions under the relevant standards: Butler National employed the brother (Wayne Stewart), son (Craig Stewart) and son-in-law (Jeff Shinkle) of Clark D. Stewart, an executive officer, as an engineer, a sales representative and public relations person, and an architect. Compensation for these related-persons was calculated in the same manner as the Summary Compensation table resulting in compensation of \$209, \$264 and \$173, respectively, for fiscal 2013, \$199, \$270 and \$165, respectively, for fiscal 2012, and \$187, \$273 and \$155 respectively, for fiscal 2011.

The policies and procedures for payment of goods and services for related transactions follow our normal course of business standards and require the necessary review and approval process as outlined in our Policies and Procedures manual and as set forth by our Compensation Committee.

9. 401(k) SAVINGS PLAN

We have a defined contribution plan authorized under Section 401(k) of the Internal Revenue Code. All benefits-eligible employees with at least thirty days of service are eligible to participate in the plan; however there are only two entry dates per calendar year. The Plan may match subject to the annual approval of the Board of Directors, 100 percent of every pre-tax dollar an employee contributes up to 6% of the employee's salary. Employees are 100 percent vested in the employer's contributions immediately. Our matching contribution, as approved by the Board of Directors was paid in common stock of the Company. The contribution amount was valued at the market price of the stock contributed in 2013, 2012, and 2011 was approximately \$281, \$278, and \$214 respectively.

10. INDUSTRY SEGMENTATION AND SALES BY MAJOR CUSTOMER:

Industry Segmentation

Current Activities - The Company focuses on two primary activities, Professional Services and Aerospace Products.

Aerospace Products:

Aircraft Modifications principally includes the modification of customer and company owned business-size aircraft from passenger to freighter configuration, addition of aerial photography capability, and stability enhancing modifications for Learjet, Beechcraft, Cessna, and Dassault Falcon aircraft along with other specialized modifications. We provide these services through our subsidiary, Avcon Industries, Inc. (“Aircraft Modifications” or “Avcon”).

Avionics principally includes the manufacture, sale, and service of airborne electronic switching units used in DC-9, DC-10, DC-9/80, MD-80, MD-90, and the KC-10 aircraft, Transient Suppression Devices (TSDs) for fuel tank protection on Boeing Classic 737 and 747 aircraft, and other Classic aircraft using a capacitance fuel quantity indicating system (“FQIS”), airborne electronics upgrades for classic weapon control systems used on military aircraft and vehicles, and consulting services with airlines and equipment manufacturers regarding fuel system safety requirements. We provide the products through our subsidiary, Butler National Corporation - Tempe, Arizona and the services through Butler National Corporation - Olathe, Kansas (“Avionics”, “Classic Aviation Products”, “Safety Products”, or “Switching Units”).

In September 2010 we expanded this division by the acquisition of Kings Avionics, Inc. The acquisition of Kings Avionics allowed us to transition into the new technology available in avionics. Kings Avionics sells, installs and repairs avionics equipment (airplane radio equipment and flight control systems). These systems are flight display systems which include intuitive touchscreen controls with large display to give users unprecedented access to high-resolution terrain mapping, graphical flight planning, geo-referenced charting, traffic display, satellite weather and much more. Kings Avionics is also recognized nationwide for its troubleshooting and repair work particularly on autopilot systems.

Professional Services:

Butler National Services, Inc. (“BNSI” or “BNS”) provides monitoring and related repair services of water and wastewater remote pumping stations through electronic surveillance for municipalities and the private sector.

BCS Design, Inc. provides licensed architectural services. These services include commercial and industrial building design.

Butler National Service Corporation (“BNSC”) provides management services to the Boot Hill Casino, a “state owned casino” and to The Stables, an “Indian owned casino”.

11. FAIR VALUE MEASUREMENTS

The Company adopted ASC Topic 820-10 at the beginning of 2009 to measure the fair value of certain of its financial assets required to be measured on a recurring basis. The adoption of ASC Topic 820-10 did not impact the Company's financial condition or results of operations. ASC Topic 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). ASC Topic 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability. The three levels of the fair value hierarchy under ASC Topic 820-10 are described below:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that an entity has the ability to access.

Level 2 - Valuations based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3 - Valuations based on inputs that are supportable by little or no market activity and that are significant to the fair value of the asset or liability.

The following table presents a reconciliation of all assets and liabilities measured at fair value on a recurring basis as of April 30, 2013 (in thousands):

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>

12. ACQUISITIONS

On September 1, 2010, we acquired Kings Avionics Inc. for \$540. The acquisition of Kings Avionics allows us to transition into new technology available in avionics today.

13. DODGE CITY LAND ACQUISITION

In June 2009 we sold 104 acres of land to BHC Development as a part of the build-to-suit agreement for \$2.0 million. The cost associated with this sale was \$1.5 million. On June 15, 2009, our subsidiary, Kansas International DDC, LLC exercised our option to purchase approximately 49 acres east of Highway 50 Bypass across from the Boot Hill Casino in Dodge City, Kansas.

14. SUBSEQUENT EVENTS

On May 2, 2013 we announced the closing of the sale of our waste water monitoring business (Butler National Services, Inc.) to Beadle Enterprises, LLC. We will receive \$270 over five (5) years for the assets.

On June 27, 2013 we announced that we are in the process of implementing an Aerospace segment cost reduction plan to align overall expenses with the current level of revenue in the segment. The plan includes reductions in staffing levels and reductions of top-level management compensation.

Our wholly owned subsidiary, Butler National Service Corporation is entering into friendly discussions with the other member of BHCMC LLC to explore the possible acquisition by Butler National Service Corporation of other member's 20% equity interest in BHCMC LLC. If and when a definitive agreement is reached, such definitive agreement and a press release concerning the acquisition will be issued to describe the terms of the agreement and the intentions of the members. We have not set a definitive timetable for our discussions and there can be no assurances that the process will result in any transaction being announced or completed. At present there is no disagreement between the members of BHCMC LLC. We do not plan to disclose or comment on developments until further disclosure is deemed appropriate.

GOOD CORPORATE CITIZEN

The Company and its Individuals are responsible citizens in the communities where the Company operates.

The Company and its Individuals are truthful, honest and forthright, in all our endeavors.

INTEGRITY

The Company and its employee's say what we mean, deliver what we promise, and stand for what is right.

RESPECT FOR THE INDIVIDUAL

The Company and its Individuals treat one another with dignity and fairness, appreciating the diversity of our work force and uniqueness of each employee.

The Company and its Individuals build confidence through teamwork and open, candid communication.

PERSONAL ACCOUNTABILITY

The Company's Individuals are free to speak up without fear of retribution - and report concerns about the workplace, including violations of law, regulations and Company policies, and seek clarification and guidance whenever there is doubt.

SUSTAINABLE CUSTOMER SOLUTIONS

Long-term and profitable customer relationships are built upon sustainable customer solutions.

2.0 OUR STANDARDS OF BUSINESS ETHICS AND CONDUCT

Company policy is to follow proper legal, sound moral and ethical standards in every area of business.

- All Individuals and anyone else who does business on behalf of Butler National Corporation, or any of its subsidiaries or affiliates ("Butler National" or the "Company"), must follow Company policy. This includes officers, directors and outside consultants.
- In handling any problem not covered by the *Standards* listed in this document

- you should use common sense and good judgment.
- If you do not know what to do about a problem, ask your supervisor, or seek assistance from the President (CEO), Vice President of Finance (CFO).

The *Standards* listed in this document do not form an employment contract, and do not imply that there is a contract. All Individuals are employed at-will and employment may be terminated by the Individual or by the company at any time.

LOYALTY

All Individuals, officers and directors have a duty of loyalty to the Company and may not take personal advantage of any opportunity that properly belongs to the Company.

RESPONSIBILITY FOR COMPLIANCE AND INTERPRETATION

Compliance with the Butler National *Standards of Business Ethics and Conduct* is the responsibility of all Individuals. Compliance is monitored by supervisors, under the guidance of officers, the President (CEO), and Vice President of Finance (CFO) of Butler National Corporation.

- At least once each year, Company directors, officers and other key Individuals must confirm in writing that they have conducted all operations under their control in accordance with the *Standards*.
- New Individuals will receive a copy of the *Standards of Business Ethics and Conduct* during orientation, are required to read it, and should sign a statement that they understand the *Standards*, received a copy, and agree to the provisions.

WHAT TO DO IF YOU SUSPECT A VIOLATION

If you suspect any violation of law or these *Standards*, you must report it immediately. There is no penalty or retribution for good-faith reporting of any suspected violation, if you choose, you "may" remain anonymous. All reports of suspected violations are taken seriously and will be investigated by the Company.

- You should report any suspected violation of law or the *Standards of Business Ethics and Conduct* to your direct supervisor, the President (CEO), Vice President of Finance (CFO), or corporate officers. You may also report suspected violations of law directly to the appropriate government officials.
- Any supervisor who receives a report of a suspected violation should notify the President (CEO) or the Vice President of Finance (CFO).
- If any suspected violation involves your direct supervisor you should report directly to the President (CEO) or Vice President of Finance (CFO), or if involving them to the Chairman of the Audit Committee.
- Each year, Company Officers are required to state in writing that they have no knowledge of material violations to this and other Company Policies other than those that may have been previously reported, if any.
- As part of its regular auditing procedures, the Company audit committee will periodically review internal policies and procedures and report their findings to executive management.
- The Company's external auditors are also expected to report in writing any known or suspected violations of this and other Company policies.
- The Company discloses this Code of Ethics on its web site in addition to other filing requirements.

DISCIPLINE AND MANDATORY SANCTIONS

We will continue to enforce the *Standards of Business Ethics and Conduct* by imposing penalties when the *Standards* are violated.

Any employee who has violated the law or these *Standards* will receive prompt and appropriate discipline, which may include termination of employment.

COMPLIANCE WITH LAW AND GOVERNMENT REGULATIONS

- It is Butler National's policy to comply with all written laws and regulations as well as the intent of those laws and regulations.
- In countries where common business practices might be less restrictive than these *Standards*, we will follow the *Standards* outlined in this booklet.
- Any employee, officer or director involved in court or other similar proceedings arising out of his or her employment with, or service to, the Company is expected to abide by the rules, cooperate with the orders of, and not in any way commit perjury or obstruction of justice. All Company Individuals must, at a minimum, comply with all applicable laws that relate to the conduct of our business in relevant jurisdiction.

EQUAL EMPLOYMENT OPPORTUNITY

Our equal opportunity policy is based on the following guidelines:

- You must follow all government guidelines regarding equal employment in every area of business.
- You must treat everyone with respect, no matter what their race, color, sex, religion, national origin, age or disability.

EMPLOYEE PRIVACY

The Company is committed to protecting the privacy of its Individuals. This includes employee data maintained by the company. Employee data will primarily be used to support Company operations, provide employee benefits, and comply with laws and regulations. The Company and all Individuals are expected to comply with all data protection laws, regulations, and Company policies.

OCCUPATIONAL SAFETY AND HEALTH

We care about the safety and health of our Individuals, and want to be sure the workplace is as risk-free as possible.

- You must follow all occupational safety and health laws.

You should remain aware of risks in the workplace, and try to reduce these risks. If needed, advice and guidance from your supervisor, the Safety Committee or the Human Resources Department can be provided.

ENVIRONMENTAL ACTIONS

We want to preserve our environment through our business operations.

- You must exercise good judgment with regard to the environmental aspects of our use of buildings and real estate and our business operations.

- You must comply with all applicable environmental laws and with all permits and approvals granted the Company by environmental regulatory authorities.
- You must make every effort to reduce or eliminate the creation of waste at the source, to promote the recycling of waste material and to dispose of any remaining waste material in accordance with environmental laws.

SUPPLIERS AND CONSULTANTS

We want to be sure that purchasing decisions are based on quality, integrity, service delivery and price - and not on personal relationships.

- You should select materials, supplies, equipment, consulting and other services from qualified suppliers at the best possible cost, consistent with quality, performance and the vendor's ability to meet delivery schedules.
- All source selection, negotiation, determination of awards and the administration of all purchasing activities must be done fairly and ethically.

DEALINGS WITH GOVERNMENT AGENCIES

We intend to maintain honest and direct relationships when dealing with government agencies.

- You must follow all applicable laws and use the highest standards of honesty and integrity when dealing with any government agency. If you believe there is a conflict between those policies and these *Standards*, you should contact your direct supervisor or the President (CEO) .

All information supplied by the Company to others should be current, accurate and as complete as requested.

ACCOUNTING AND AUDITING

We want to be sure that all Butler National records and reports are maintained according to Generally Accepted Accounting Practices (GAAP). Generally Accepted Accounting Principles are accounting principles that are considered to have substantial authoritative support. Pronouncements made by the Financial Accounting Standards Board (FASB) are considered GAAP. You can learn more about GAAP and FASB at <http://www.fasb.org>. All company records are to be in compliance with GAAP and the Securities and Exchange Commission laws and regulations.

- You should follow standard accounting practices for record keeping and financial reporting.
- Individuals are expected to maintain accurate and reliable corporate records that comply with GAAP, the SEC, and Company policies and procedures
- You must not give any false, misleading or incomplete information to anyone (external or internal) who is preparing or conducting any audit.
- The Company President, Chief Financial Officer, and others identified by the CEO have specific legal obligations to ensure the Company provides full, fair, accurate, timely, and understandable financial reports and internal controls.

GIFTS AND FAVORS

The Company considers it unethical and illegal for any employee to accept or offer payment, gift, gratuity, or employment to or from vendors, contractors, or government officials as an inducement for preferential

treatment. All offers for kickback, gifts, gratuity or favors shall be reported to the Corporate Office. We want to be sure that the giving or receiving of any gifts or favors follows accepted business practices, does not violate any laws and may not be viewed as a bribe or payoff.

- You should not seek or accept costly gifts, gratuities, or excessive entertainment from any person or entity with which we have business dealings. However, a gift, gratuity or entertainment will not be considered "costly" if its value does not exceed 1/10 of 1% of your salary. The Company does not consider the giving or acceptance of a ball cap, tee shirt, jacket, an occasional lunch, game of golf, or the like with non-government officials to be a kickback, gift or gratuity for the purpose of this policy.

ILLEGAL CORPORATE PAYMENTS OR CONTRIBUTIONS

We must ensure that all Butler National Individuals and others who do business with Butler National obey all laws that apply to every area of business.

- You must not make or receive bribes, payoffs, kickbacks or illegal or corrupt political contributions whether cast in the form of ordinary payment or receipts or in the form of "commissions," payments or fees for goods or services received, or otherwise.
- You must not use any Company funds or other assets, or provide services, directly or indirectly (for example, through a third party), for any illegal purposes.

POLITICAL CONTRIBUTIONS

We want to comply with all laws of the United States prohibiting contributions by a corporation to political parties or candidates.

- Where prohibited by law, no Company funds or other assets are to be contributed or loaned, directly or indirectly, to any political party or for the campaign of any person for political office, or expended in support of or in opposition to such party or person. If you have a questions about the applicable law in your area, you should contact the President (CEO) or Vice President of Finance (CFO).

All political contributions permissible by law, must be authorized by the President (CEO) of Butler National Corporation.

COMPANY PROPERTY AND RESOURCES

Individuals are expected to use good judgment regarding the use of Company resources. Individuals are accountable for using such resources responsibly to perform Company business. Any personal use of Company resources must not result in added costs, disruption of business processes, or any other disadvantage to the Company. Managers are responsible for the resources assigned to their respective organizations and are empowered to resolve issues concerning their proper use.

Individuals can unknowingly compromise the security and integrity of Company information through the improper use of Company equipment. Individuals using Company equipment for personal purposes are accountable for that use and must ensure that no compromise results.

Individuals must ensure that:

- Such materials and equipment remain on Company-controlled property unless the local President (CEO) has authorized use in another location.
- Proper measures are taken for the storage and safeguarding of Company data and information to prevent unauthorized access, use or removal by any means and in any form (e.g., electrical, optical, magnetic, or hard copy) of such data or information.

- Company, customer, and supplier resources are not used for outside business activities or unauthorized non-Company purposes.
- Personal use of computing equipment does not compromise the security or integrity of Company information, software, or hardware, and does not impact job performance.

Resources entrusted to Butler National Corporation and its subsidiaries by current or prospective suppliers or customers are used only as authorized by the supplier or customer.

COMMUNICATION SYSTEMS

Butler National Corporation and its subsidiary's communication systems and networks are provided for the conduct of Company business. To ensure that computing resources are used in accordance with expectations, management may inspect and disclose the contents of electronic messages if such inspection and disclosure is made for legitimate business purposes or as necessary to protect the rights and property of the Company. However, personal use by Individuals of Company telephones, facsimile machines, and voicemail, email, and Internet systems is permitted within the following guidelines:

- The use is of reasonable duration and frequency does not impact job performance.
- The Company incurs no added costs.
- The use would not cause embarrassment to the Company.
- The use is not in support of any religious, political, or outside organization activity, except as may have been authorized in advance by the President (CEO) of the company
- The use does not interfere with the performance of Company business, the employee's assigned duties, or the assigned duties of other Individuals and does not adversely affect the performance of the employee or the employee's organization.
- Use of computing resources to offend or harass others is not acceptable and prohibited. Individuals, who use the Internet to access sites that contain offensive materials related to sex, race, or other protected categories, or who otherwise violate these prohibitions, will be subject to termination.
- Do not download any software from the Internet that is not directly related to your work at Butler National.

Note: Individuals are not to make use of the Internet for any purpose that may be illegal or might otherwise embarrass the Company (e.g. pornography, gambling). This includes Individuals sending emails using their Company address or Company Computer.

CONFIDENTIAL INFORMATION

We must safeguard the Company's confidential and proprietary information and information provided to us in confidence by others.

- You should not disclose confidential details about Butler National businesses, including, but not limited to, customer lists and employee lists, with any unauthorized person. If you are not sure whether someone is authorized, ask your direct supervisor.
- You should not disclose confidential information about customers with other customers or with anyone from another department who does not need this information.

- You should treat all business information learned at the workplace, computer systems, programs and data as confidential, and protect this information from use by any unauthorized person. If you are not sure whether someone is authorized, ask your direct supervisor.

As an employee and a condition of employment, you should have signed an employee non-disclosure agreement. Always consider potential implication of discussing any company matter with anyone.

RELEASE OF INFORMATION

We want to make sure that we can control to the extent possible when, where and how information about Butler National businesses is shared with the public in order to ensure such information is consistent and reliable and is disclosed in an equitable manner.

- Only a limited number of senior executives are authorized to discuss Butler National historical and expected financial performance and other material corporate developments. All requests for such information from members of the financial community, such as financial analysts, and members of the news media should be referred to the President (CEO) or Vice President of Finance (CFO).

If you are asked for information about current or former Individuals, refer the request to your direct supervisor or the Human Resources Department.

SECURITIES AND EXCHANGE COMMISSION

We want to ensure prompt and correct reporting of issues that may affect the public trading of Butler National's common stock.

- You must report to your direct supervisor or the President (CEO) or Vice President of Finance (CFO) immediately any event that could affect the value of Butler National common stock. If you are not sure about what type of event to report, ask your direct supervisor or the President (CEO) or Vice President of Finance (CFO).

INSIDER TRADING

We must not be involved in any activity related to "insider trading". "Insider trading" means activities related to any kind of stock or securities trading based on information not available to the general public, sometimes known as "insider information".

- Company Individuals may not buy or sell stock or other securities of the Company based on "inside information," or have such stock or security bought for you by someone else.
- Company Individuals should not provide any "insider information" to any unauthorized person. If you are not sure whether someone is authorized, ask your direct supervisor.
- Company Individuals may also not engage in "selective disclosure" with individuals who may benefit from, or may advise others to benefit from, the disclosure.
- Company Directors and Officers have specific prohibitions related to trading of company stock. Section 16 and 10b Rules of the S.E.C. regulations identify the limitations.

MEDIA RELATIONS

Individuals may be asked by representatives of the media for information concerning the Company's position on public issues or private issues (such as litigation).

DO NOT COMMENT.

PLEASE REFER ALL CONTACTS FROM ALL MEDIA TO 913-780-9595.

CONFLICTS OF INTEREST

We want to avoid any conflict of interest among Butler National's Individuals who make decisions on Company matters.

- You must not make a decision or recommendation upon any matter in which your action may appear to be affected by a personal interest or by your position as an owner, stockholder, officer, director or employee of another organization that is a Butler National customer, supplier or competitor.
- You must not participate in any business dealings that would allow you to profit, directly or indirectly, because you are an agent, owner, shareholder, officer, director or employee of another organization that is a Butler National customer, supplier or competitor. No officer of the Company may serve as an officer or director of any unaffiliated entity without the prior approval of the Company's CEO.
- If you have outside business or financial interests that could affect your responsibilities to Butler National, you must report them in writing to the CEO or the Vice President of Finance (CFO). This includes any interest in any organization that is a Butler National customer, supplier or competitor, or that could reflect unfavorably on Butler National.

The Company does not make loans to or guarantee obligations of Company Individuals.

IMPROPER INFLUENCE ON CONDUCT OF AUDITS

No officer, director, or any other person acting under the direction thereof, shall take any action to fraudulently influence, coerce, manipulate, or mislead any independent public or certified accountant engaged in the performance of an audit of the financial statements of the Company for the purpose of rendering such financial statements materially misleading. Examples of such behavior include, but are not limited to:

- Offering or paying bribes or other financial incentives, including offering future employment or contracts for non-audit services.
- Providing the auditor with any inaccurate or misleading legal analysis.
- Threatening to cancel or canceling existing non-audit or audit engagements if the auditor objects to the Company's accounting.
- Seeking to have an audit partner removed from the audit engagement because the partner objects to the Company's accounting activities.
- Blackmailing, and Making physical threats.
- Withholding confidential financial information from the auditor when the auditor has a need to know.

Individuals may not divulge confidential or proprietary information except as authorized by the CEO.

ANTITRUST LAWS

- We want to be sure that all Individuals follow both the written laws and the intent of all antitrust laws and regulations.

- You may not conduct any business that violates any international, federal or state antitrust laws.
- You may not agree with a competitor to set prices, terms, or conditions of sale, production, distribution, territories or customers.
- You may not give a competitor any details of prices, terms, or conditions of sale, or any other competitive information that may be viewed as anti-competitive or illegal.

CAUTIONARY STATEMENTS FOR PURPOSE OF THE “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

The Company desires to take advantage of the new “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 and is filing this exhibit in order to do so. The following important factors, among others, could affect the Company actual results and could cause such results to differ materially from those expressed in the Company forward-looking statements:

Item 1A. RISK FACTORS

Factors That May Affect Future Results of Operations, Financial Condition or Business: Statements made in this report, the Annual Report on Form 10-K the Annual Report to Stockholders in which this report is made a part, other reports and proxy statements filed with the Securities and Exchange Commission, communications to stockholders, press releases, and oral statements made by representatives of the Company that are not historical in nature, or that state the Company or management intentions, hopes, beliefs, expectations or predictions of the future, may constitute “forward-looking statements” within the meaning of Section 21E of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”). Forward looking statements can often be identified by the use of forward-looking terminology, such as “could,” “should,” “will,” “intended,” “continue,” “believe,” “may,” “expect,” “hope,” “anticipate,” “goal,” “forecast,” “plan,” “guidance” or “estimate” or the negative of these words, variations thereof or similar expressions. Forward-looking statements are not guarantees of future performance or results. They involve risks, uncertainties, and assumptions. It is important to note that any such performance and actual results, financial condition or business, could differ materially from those expressed in such forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Item 1A. Risk Factors and elsewhere herein or in other reports filed with the SEC. Other unforeseen factors not identified herein could also have such an effect. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results, financial condition or business over time.

Defense Spending: We have concerns regarding the Budget Control Act of 2011 (the “Budget Act”) that was signed into law on August 2, 2011. The law to reduce federal government expenditures over the next 10 years may result in reduced U.S. government funding for the defense industry. The Budget Act set \$900 billion in immediate costs to discretionary government spending for 2012 through 2021. The impact of any resulting reductions in defense appropriations, and/or reduction in U.S. spending could negatively affect the Company’s revenues for our avionics defense products.

General Governmental Regulations of Financial Reporting: The Company reports information to its stockholders and the general public pursuant to the regulations of various Federal and State Commissions and Agencies. These regulations require conformance by the Company to Generally Accepted Accounting Principles, to pronouncements of the Public Company Accounting Oversight Board (“PCAOB”), and to accounting and reporting directives issued by the commissions and agencies. The political and regulatory environment in which the Company is operating is dynamic and rapidly changing. Adoption and/or changes in regulations defining accounting procedures or reporting requirements could have a materially adverse effect on the Company. The Company depends upon the financial institutions and capital markets for financing to continue operations and to finance and develop new opportunities.

General Governmental Regulation of Gaming: The approved and proposed gaming management operations are and will be subject to extensive gaming laws and regulations, many of which were recently adopted and have not been the subject of definitive interpretations and are still subject to proposed amendments and regulation. The political and regulatory environment in which the Company is and will be operating, with respect to gaming activities on both non-Indian and Indian land, is dynamic and rapidly changing. Adoption and/or changes in gaming laws and regulations could have a materially adverse effect on the Company. Interference with the execution of the steps defined by the gaming laws and regulations by interested third parties, although not included by the regulations, may significantly slow the approval process.

Fuel and Energy Costs: Our business depends on use of the aircraft for business transportation, freight transportation, and many special mission applications. Should our customers be unable to purchase fuel and energy and/or be unable to pass on disproportionate costs to their customers, the use of business and military aircraft by our customers may be curtailed. The value of the aircraft related assets would decrease and the revenue related to the aircraft equipment and modifications would decrease. These events could have a material adverse effect on our Company.

National Economy and Financing:

The recent downturn and in the national economy, the volatility and disruption of the capital and credit markets and adverse changes in the global economy could negatively impact our financial performance and our ability to access financing.

The recent severe economic downturn and adverse conditions in the local, regional, national and global markets have negatively affected our operations, and may continue to negatively affect our operations in the future. During periods of economic contraction such as the current period, our revenues may decrease while some of our costs remain fixed or even increase, resulting in decreased earnings. Gaming and Aviation activities we offer represent discretionary expenditures and participation in such activities may decline during economic downturns, during which consumers generally earn less disposable income. Even an uncertain economic outlook may adversely affect consumer spending in our gaming operations and related facilities, as consumers spend less in anticipation of a potential economic downturn. Furthermore, other uncertainties, including national and global economic conditions, terrorist attacks or other global events, could adversely affect consumer spending and adversely affect our operations.

Acts of terrorism and war, natural disasters and severe weather may negatively impact our future profits.

Terrorist attacks and other acts of war or hostility have created many economic and political uncertainties. We cannot predict the extent to which terrorism, security alerts or war, or hostilities throughout the world will continue to directly or indirectly impact our business and operating results. As a consequence of the threat of terrorist attacks and other acts of war or hostility in the future, premiums for a variety of insurance products have increased, and some types of insurance are no longer available. Given current conditions in the global insurance markets, we are substantially uninsured for losses and interruptions caused by terrorist acts and acts of war. If any such event were to affect our properties, we would likely be adversely impacted.

In addition, natural disasters such as major fires, floods, tornados, hurricanes and earthquakes could also adversely impact our business and operating results. Such events could lead to the loss of use of one or more of the facilities for which we provide management services for an extended period of time and disrupt our ability to attract customers to certain of our gaming facilities. If any such event were to affect our properties, we would likely be adversely impacted.

In most situations, we have insurance that should provide coverage for portions of any losses from a natural disaster, but it is subject to deductibles and maximum payouts in many cases. Although we may be covered by insurance from a natural disaster, the timing of our receipt of insurance proceeds, if any, is beyond our control.

Key Personnel: Our inability to retain key personnel may be critical to our ability to achieve our objectives. Key personnel are particularly important in maintaining relationships with Indian Tribes and with the operations licensed by the FAA, State of Kansas and the NIGC. Loss of any such personnel could have a materially adverse effect on the Company.

Our success depends heavily upon the continued contributions of these key persons, whose knowledge, leadership and technical expertise would be difficult to replace, and on our ability to attract and retain experienced professional staff. We entered into an employment agreement with our CEO; however, we do not maintain key person insurance on any of these key persons. If we were to lose the services of these key persons, our ability to execute our business plan would be harmed and we may be forced to cease operations until such time as we could hire suitable replacements.

Competition: Increased competition, including the entry of new competitors, the introduction of new products by new and existing competitors, or price competition, could have a materially adverse effect on the Company. Additionally, because of the rapid rate at which the gaming industry has expanded, and continues to expand, the gaming industry may be at risk of market saturation, both as to specific areas and generally. Overbuilding of gaming facilities by others at particular sites chosen by us may have a material adverse effect on our ability to compete and on our operations.

Major Customers: The termination of contracts with major customers or renegotiation of these contracts at less cost-effective terms could have a materially adverse effect on the Company. Irregularities in financial accounting procedures, financial reporting requirements and regulatory reporting requirements could cause major customers to become unstable and be unable to complete business transactions which could have a materially adverse effect on the Company. We have no “major customers” (10 percent or more of consolidated revenue). During the fiscal year ending April 30, 2012 we derived 20% of our revenue from five customers.

Product Development: Difficulties or delays in the development, production, testing and marketing of products, could have a materially adverse effect. Our Aerospace business is subject, in part, to regulatory procedures and administration enacted by and/or administered by the FAA. Accordingly, our business may be adversely affected in the event the Company is unable to comply with such regulations relative to its current products and/or if any new products and/or services to be offered by the Company can or may not be formally approved by such agency. Moreover, our proposed new aviation modification products will depend upon the issuance by the FAA of a Supplemental Type Certificate with related parts manufacturing authority and repair station license, the issuance of which no assurances can be given.

International Sales: Our international sales may be subject to local government laws, regulations and procurement policies and practices which may differ from U.S. Government regulation, including regulations related to products being installed on aircraft, exchange controls, as well to varying currency, geo-political and economic risks. We also are exposed to risks associated with any relationships with foreign representatives, consultants, partners and suppliers for international sales and operations.

Adverse Actions: Adverse actions by regulators, customers, competitors and/or professionals engaged to regulate or to serve us may cause project delays and excessive administrative costs are not controllable by us.

Administrative Expenditures: Higher service, administrative, additional regulatory requirements, or general expenses occasioned by the need for additional legal, consulting, advertising, marketing, or administrative expenditures may decrease income to be recognized by the Company.

Strategic Acquisitions and Investments: We continually review, evaluate and consider potential investments and acquisitions in pursuing our business strategy. In evaluating such transactions, we are making difficult judgments regarding the value of business opportunities, technologies and other assets, and the risk and cost of potential liabilities. Acquisitions and investments involve certain other risks and uncertainties, including the difficulty in integrating newly-acquired businesses, the challenges in reaching our strategic objectives and other benefits expected from acquisitions or investments. Other risks include the diversion of our attention and resources from our current operations, the potential of impairment of acquired assets and the potential loss of key employees of acquired businesses.

Joint Ventures and Other Arrangements: We have entered, and may continue to enter, into joint venture and other arrangements. These activities involve risk and uncertainties, including the risk of the joint venture or applicable entity failing to satisfy its obligations, which may result in certain liabilities to us for guarantees or other commitments. Additional risks involve the challenges in achieving strategic objectives and expected benefits of the business arrangement, including the risk of conflicts arising between us and others and the difficulty of managing and resolving such conflicts and the difficulty of managing or otherwise monitoring such business arrangements.

Impairment of Intangible Property: We evaluate intangible assets for impairment annually during the fourth quarter and in any interim period in which circumstances arise that indicate our intangible asset may be impaired. Indicators of impairment include, but are not limited to, the loss of significant business and, or significant adverse changes in industry or market conditions. No events occurred during the periods presented that indicated the existence of an impairment with respect to our intangible assets related to the JET acquisition. Preparation of forecasts for use in the long-range plan and the selection of the discount rate involve significant judgments that we base primarily on existing firm orders, expected future orders and general market conditions. Significant changes in these forecasts or the discount rate selected could affect the estimated fair value and could result in an impairment charge in a future period. There was no indication of intangible assets impairment for continuing operations as a result of our impairment analysis. If we are required to record an impairment charge in the future, it could materially affect our results of operations.

Low-Priced Penny Stock: Because our common stock is deemed a low-priced “Penny” stock, an investment in our common stock should be considered high risk and subject to marketability restrictions.

Since our common stock is a penny stock, as defined in Rule 3a51-1 under the Securities Exchange Act, it will be more difficult for investors to liquidate their investment even if and when a market develops for the common stock. Until the trading price of the common stock rises above \$5.00 per share, if ever, trading in the common stock is subject to the penny stock rules of the Securities Exchange Act specified in rules 15g-1 through 15g-10. Those rules require broker-dealers, before effecting transactions in any penny stock, to:

- Deliver to the customer, and obtain a written receipt for, a disclosure document;
- Disclose certain price information about the stock;
- Disclose the amount of compensation received by the broker-dealer or any associated person of the broker-dealer;
- Send monthly statements to customers with market and price information about the penny stock; and
- In some circumstances, approve the purchaser’s account under certain standards and deliver written statements to the customer with information specified in the rules.

Consequently, the penny stock rules may restrict the ability or willingness of broker-dealers to sell the common stock and may affect the ability of holders to sell their common stock in the secondary market and the price at which such holders can sell any such securities. These additional procedures could also limit our ability to raise additional capital in the future.

In addition, some provisions of our Articles of Incorporation and Bylaws could make it more difficult for a potential acquirer to acquire a majority of our outstanding voting stock. This includes, but is not limited to, provisions that: provide for a classified Board of Directors, prohibit stockholders from taking action by written consent, and restrict the ability of stockholders to call special meetings. We are also subject to provisions of Kansas law K.S.A. 17-12, 101 that prohibit us from engaging in any business combination with any interested stockholder for a period of three years from the date the person became an interested stockholder, unless certain conditions are met, which could have the effect of delaying or preventing a change of control.

Regulation Under Federal Aviation Administration: Our Aerospace business is subject to regulation by the Federal Aviation Administration (“FAA”). We manufacture products and parts under FAA Parts Manufacturing Authority (PMA) requiring qualification and traceability of all materials and vendors used by us. We make aircraft modifications pursuant to the authority granted by Supplemental Type Certificates issued by the FAA. We repair aircraft parts pursuant to the authority granted by our FAA Authorized Repair Station. Violation or changes to FAA regulations could be detrimental to our operations.

Licensing and Regulation under Federal Indian Law: Gaming on Indian land is extensively regulated by Federal, State, and Tribal governments and authorities. Regulatory changes could limit or otherwise materially affect the types of gaming that may be conducted on Indian Land. All aspects of our business operations on Indian Lands are subject to approval, regulation, and oversight by the Bureau of Indian Affairs (“BIA”), the

Secretary of the United States Department of the Interior (“Secretary”), and the National Indian Gaming Commission (“NIGC”). Our management of Class III gaming operations is also subject to approval of a Class III Gaming Compact between the Indian Tribe and the respective state. Failure to comply with applicable laws or regulations, whether Federal, State or Tribal, could result in, among other things, the termination of any management agreements which would have a material adverse effect on us. We are also required to comply with background checks as specified in Tribal-State Compacts before we can manage gaming operations on Indian land. There can be no assurance that we would continue to be successful in obtaining the necessary regulatory approvals for our gaming operations on a timely basis, or at all.

Licensing and Regulation under State Law: Our present and future stockholders are and will continue to be subject to review by regulatory agencies. Gaming licenses and/or background investigations (“license”) are required in connection with our management of a State of Kansas owned Lottery Gaming Facility (a casino). Our management personnel, Butler National and/or the managing subsidiaries, the key personnel of all entities may be required to have a Lottery Gaming Facility gaming license prior to conducting operations. The failure of the Company or the key personnel to obtain or retain a license could have a material adverse effect on the Company or on its ability to obtain or retain these licenses in other jurisdictions. Each such State Gaming Agency has broad discretion in granting, renewing, and revoking licenses. Obtaining such licenses and approvals will be time consuming and cannot be assured.

The State of Kansas has approved state-owned Lottery Gaming Facilities, pari-mutuel dog and/or horse racing for non-Indian organizations. The State of Kansas operates a state lottery, keno games, and plans to operate state-owned Lottery Gaming Facilities for the benefit of the State. The Lottery Gaming Facility management contract approval process requires that any entity or person owning one-half of one percent (0.5%) of the ownership interest of the management company must be found suitable to be an owner by the State of Kansas. The Kansas Supreme Court announced its ruling affirming the constitutionality of the Kansas Expanded Lottery Act (KELA) as the law was enacted. There can be no assurances that other constitutionality challenges will not occur.

As a condition to obtaining and maintaining our various gaming approvals, we must submit reports to the Indian Tribe and the respective federal and state regulatory Agencies (“the Agency”). Any person owning or acquiring 5% or more of the Common Stock of the Company must be found suitable by one or more of the agencies or the Indian Tribes (“the Interest”). Any Agency has the authority to require a finding of suitability with respect to any stockholder regardless of the percentage of ownership.

If found unsuitable by any Agency or the Indian Tribe, the stockholder must offer all of the Ownership Interest in Company stock held by such stockholder to the Company for cash at the current market bid price less a fifteen percent (15%) administrative charge and the Company must purchase such Interest within six months of the offer. The stockholder is required to pay all costs of investigation with respect to a determination of his/her suitability. In addition, regardless of ownership, each member of the Board of Directors and certain officers of the Company are subject to a finding of suitability by any Agency and the Indian Tribe.
